Ontario Energy Board Amendments to the Distribution System Code EB-2008-0001

1.0 GENERAL AND ADMINISTRATIVE PROVISIONS

Section 1.7 of the Code will be amended to add in the following sentence at the end of the section:

All of Chapter 7, Service Quality Requirements, comes into force on January 1, 2009.

The following will be added into the Code as new Section 7:

7.0 SERVICE QUALITY REQUIREMENTS

7.1 Definitions

In Chapter 7, the following words have the meanings set out below.

“answered” means connected to a person that is a representative of the distributor. Connection to a voice mailbox or an answering machine, or placing a person in a queue, does not constitute answering.

“customer care telephone number” means any telephone number that is dedicated exclusively to, and given to the public by the distributor for, the purpose of contacting the distributor on matters concerning customer care, including customer account enquiries and other customer service enquiries. Where a distributor does not have a telephone number dedicated exclusively to matters concerning customer care, any telephone number given to the public for the purpose of making enquiries of the distributor shall be deemed to be a “customer care telephone number”.

“emergency call” means a call where the assistance of the distributor has been requested by fire, ambulance or police services.

“qualified enquiry” means an enquiry received by a distributor from a customer or representative of a customer pertaining to the customer’s existing or prospective service in which a written response is requested by the customer or representative of the customer or determined by the distributor to be necessary. A “qualified enquiry” does not include any of the following, which shall be addressed in accordance with other applicable requirements: cable locate requests; retailer Service Transaction Requests; and enquiries of a general nature not relating specifically to service currently provided to a customer or to a new service being requested by a customer.

“qualified incoming calls” means calls that are received during the regular hours of operation of a distributor’s customer call centre and are either:

- (a) telephone calls for which the customer normally reaches a customer service representative directly or has been transferred to a customer care line by a general operator; or
- (b) telephone calls in which the customer has reached the distributor’s Interactive Voice Response (“IVR”) system and selected the option of speaking to a customer service representative.

The following are not “qualified incoming calls”:

- (a) telephone calls that are abandoned by the customer prior to asking for a customer service representative; and
- (b) telephone calls for which the customer elects IVR self-service.

“new service” means a connection that requires an Electric Safety Authority certificate before the connection can be completed. This includes, but is not limited to, connections associated with a service upgrade and connections that involve the installation of an additional meter on the distribution system where no meter previously existed. Solely replacing an existing meter is not a new service.

“service conditions” means any condition that must be satisfied before the service will be provided and may include the payment of connection fees, the signing of an offer to connect, the completion of a distribution system expansion, the delivery of any necessary equipment and the receipt of an electrical safety inspection certificate.

7.2 Connection of New Services

- 7.2.1 A connection for a new service request for a low voltage (<750 volts) service must be completed within 5 business days from the day on which all applicable service conditions are satisfied, or at such later date as agreed to by the customer and distributor.
- 7.2.2 A connection for a new service request for a high voltage (>750 volts) service must be completed within 10 business days from the day on which all applicable service conditions are satisfied, or at such later date as agreed to by the customer and distributor.
- 7.2.3 This service quality requirement must be met at least 90 percent of the time on a yearly basis.

7.3 Appointment Scheduling

- 7.3.1 When a customer or a representative of a customer requests an appointment with a distributor, the distributor shall schedule the appointment to take place within 5 business days of the day on which all applicable service conditions are satisfied or on such later date as may be agreed upon by the customer and distributor.
- 7.3.2 Where the appointment in section 7.3.1 requires the presence of the customer or the customer’s representative, the distributor shall fulfil the requirements set out in section 7.4.1.
- 7.3.3 Where the appointment in section 7.3.1 does not require the presence of the customer or the customer’s representative, the distributor shall arrive for the appointment on the day scheduled under section 7.3.1.
- 7.3.4 This service quality requirement must be met at least 90 percent of the time on a yearly basis.
- 7.3.5 All of the actions set out in:
 - (a) section 7.3.1; and
 - (b) section 7.3.2 or section 7.3.3, as applicable,

must be completed in order to fulfil this service quality requirement.

- 7.3.6 This service quality requirement applies regardless of whether or not the presence of the customer or the customer’s representative is required.
- 7.3.7 This service quality requirement does not apply to appointments that are subject to the requirements in sections 7.2.1 and 7.2.2.

7.4 Appointments Met

- 7.4.1 When an appointment is either:
 - (a) requested by a customer or a representative of a customer with a distributor ; or
 - (b) required by a distributor with a customer or representative of a customer,

the distributor must offer to schedule the appointment during the distributor's regular hours of operation within a window of time that is no greater than 4 hours (i.e., morning, afternoon or, if available, evening). The distributor must then arrive for the appointment within the scheduled timeframe.

7.4.2 This service quality requirement must be met at least 90 percent of the time on a yearly basis.

7.4.3 Both of the actions set out in section 7.4.1 must be completed in order to fulfil this service quality requirement.

7.4.4 If the distributor arrives at the scheduled appointment within the required time period but the appointment cannot be met because the customer failed to attend the appointment, the distributor may consider the appointment to have been met for the purpose of determining its performance with the standard.

7.4.5 This service quality requirement applies to appointments that:

- (a) require the presence of the customer or the customer's representative;
- (b) are scheduled to occur at the distributor's office, the customer's premises, business or work site, or at another location agreed to by the distributor and customer; and
- (c) are a frequently recurring part of the distributor's normal course of business, including, but not limited to, the following:
 - (i) disconnecting and/or reconnecting service to effect maintenance or upgrades;
 - (ii) connecting a new customer;
 - (iii) connecting a new service for an existing customer;
 - (iv) providing underground cable locates;
 - (v) inspections;
 - (vi) gaining access to read or replace an inside meter or to provide the customer with instructions on the proper use of a prepaid meter or similar device; and
 - (vii) appointments that are rescheduled as required by section 7.5.1.

7.5 Rescheduling a Missed Appointment

7.5.1 When an appointment to which sections 7.3.1, 7.3.3, or 7.4.1 apply is missed or is going to be missed, the distributor must:

- (a) attempt to contact the customer before the scheduled appointment to inform the customer that the appointment will be missed; and
- (b) attempt to contact the customer within one business day to reschedule the appointment.

7.5.2 This service quality requirement must be met 100 percent of the time on a yearly basis.

7.5.3 Both of the actions set out in section 7.5.1 must be completed in order to fulfil this service quality requirement.

7.5.4 This requirement does not apply if the appointment is missed due to the failure of the customer or the representative of the customer to attend the appointment.

7.5.5 The rescheduled appointment becomes a new appointment for the purposes of sections 7.3.1 or 7.4.1 as appropriate.

7.6 Telephone Accessibility

7.6.1 Qualified incoming calls to the distributor's customer care telephone number must be answered within the 30 second time period established under section 7.6.3.

7.6.2 This service quality requirement must be met at least 65 percent of the time on a yearly basis.

7.6.3 For qualified incoming calls that are transferred from the distributor's IVR system, the 30 seconds shall be counted from the time the customer selects to speak to a customer service representative. In all other cases, the 30 seconds shall be counted from the first ring.

7.7 Telephone Call Abandon Rate

7.7.1 The number of qualified incoming calls to a distributor's customer care telephone number that are abandoned before they are answered shall be 10 percent or less on a yearly basis.

7.7.2 For the purposes of section 7.7.1, a qualified incoming call will only be considered abandoned if the call is abandoned after the 30 second period established under section 7.6.1 has elapsed.

7.8 Written Response to Enquiries

7.8.1 A written response to a qualified enquiry shall be sent by the distributor within 10 business days.

7.8.2 This service quality requirement must be met at least 80 percent of the time on a yearly basis.

7.8.3 The 10 business days shall be counted from the date on which any conditions associated with the enquiry have been satisfied (such as the date of a move where there is a request for a final statement of account) or, if there are no such conditions, from the date of receipt of the enquiry.

7.8.4 A distributor may consider a written response to have been sent if the distributor sends a written acknowledgement of receipt of the qualified enquiry and includes a specific date in which a complete response to the qualified enquiry will be provided.

7.8.5 A written response shall be deemed to have been sent on the date on which it is faxed, mailed or e-mailed by the distributor.

7.9 Emergency Response

7.9.1 Emergency calls must be responded to within 120 minutes in rural areas and within 60 minutes in urban areas.

7.9.2 This service quality requirement must be met at least 80 percent of the time on a yearly basis.

7.9.3 The definition of “rural” and “urban” should correspond to the municipality’s definition.

7.9.4 The arrival of a qualified service person on site will constitute a response.

Financial Services Commission of Ontario

STATEMENT OF PRIORITIES

June 2008

Introduction

The Financial Services Commission of Ontario (FSCO) is a regulatory agency established under the Financial Services Commission of Ontario Act, 1997 (FSCO Act).

Section 11 of the FSCO Act requires FSCO to deliver to the Minister of Finance and publish in *The Ontario Gazette* (by June 30th of each year), “a statement setting out the proposed priorities of the Commission for the fiscal year in connection with the administration of this Act and all other Acts that confer powers on or assign duties to the Commission or the Superintendent; and a summary of the reasons for adoption of the priorities.”

This is FSCO’s eleventh Statement of Priorities. It identifies key challenges facing FSCO, outlines proposed strategic priorities for the coming year, and notes recent progress on significant projects.

FSCO is comprised of three parts: the five-member Commission; the Superintendent of Financial Services and staff; and the Financial Services Tribunal. FSCO regulates insurance, pension plans, loan and trust companies, credit unions/caisses populaires, mortgage entities and co-operative corporations in Ontario.

As of March 1, 2008, FSCO regulated or registered 394 insurance companies, 7755 pension plans, 207 credit unions and caisses populaires, 55 loan and trust companies, 1,290 mortgage brokers, 1,610 co-operative corporations, as well as approximately 39,700 insurance agents, 4,040 corporate insurance agencies and 1,145 insurance adjusters.

The Mortgage Brokerages, Lenders and Administrators Act, 2006, is set to take effect on July 1, 2008. At that time, any person or entity carrying on the business, in Ontario, of dealing or trading in mortgages, administering mortgages or as a mortgage lender, and any individual dealing or trading in mortgages in Ontario for remuneration, must be licensed with FSCO, unless an exemption applies. FSCO will be issuing licenses to mortgage brokerages, brokers, agents and administrators.

Ontario continues to modernize its business and financial regulation to maintain an attractive business climate, keep pace with global markets and build on Ontario’s economic advantage. A competitive regulatory framework protects consumers and investors, and supports a positive business climate and growing economy.

Our Mandate

To protect the public interest and enhance public confidence in the regulated sectors, FSCO provides regulatory services that protect financial services consumers and pension plan beneficiaries, and support a healthy and competitive financial services industry.

Our Vision

We are committed to being a vigilant, fair-minded and forward-looking regulatory agency with a constructive and responsive presence in Ontario’s financial services marketplace.

Our Values

Organizations reflect the shared values of their members. FSCO is committed to the values set out below.

Professionalism Strive to achieve the highest standards of behaviour, competence and integrity in our work.

Fairness Strive to deal with stakeholders in an even-handed manner and demonstrate fairness in the workplace.

Equity Strive to balance the interests of the public, including consumers and regulated stakeholders.

Accountability	Ensure that the policies and objectives of the provincial government are upheld.
Excellence	Strive to do the best in everything FSCO does.
Respect	Value and treat individuals with respect and dignity in everything FSCO does.
Teamwork	Work together as a team in serving consumers, the government and stakeholders.

Key Challenges

FSCO engages in planning exercises to identify current and future strategic priorities to guide activities toward the achievement of its objectives. For this process to be effective, external factors affecting the financial services industry must be considered. FSCO continues to take into account the following challenges.

Globalization

The continuing trend toward globalization and international consolidation in the financial sectors is blurring jurisdictional lines. Today, financial services providers can reach out to consumers via the Internet and e-commerce technologies, depending less on the bricks and mortar based business models of the past. This has led to consolidations and mergers among financial institutions, increases in the number of multi-national companies providing financial services and vast changes in the way these services are delivered. In this online global marketplace, companies are no longer tethered to one or two business lines and can offer a broader range of financial services, many of which are subject to different regulatory regimes.

As a result of these factors, the production, marketing and delivery of financial services products has also changed, resulting in a further multiplication of regulatory issues. The new borderless frontier facilitated by technology challenges financial services regulators to address regulation using a broad cross-jurisdictional, cross-sectoral approach.

Market Conditions

A number of significant economic challenges continue to affect the Ontario economy and contribute to uncertain market conditions. Higher oil prices, the stronger Canadian dollar and a weaker economic outlook in the United States have led to slower projected economic growth for the province of Ontario. To address these challenges, it is essential that regulators have a firm grasp of market realities to effectively measure and manage risk.

Consumer Protection and Education

Technological innovation in the financial services marketplace has empowered consumers, providing them with more products and services to choose from than ever before. While providing the benefit of increased opportunities, the complexity of a more diverse marketplace can also make it more difficult for consumers to make informed choices. More than ever, consumers are turning to professionals for assistance when making financial decisions.

Regulatory Renewal

In addition to the issues and developments taking place in the various regulated sectors, FSCO also has to take into account other variables that impact on its responsibilities as a regulator. They include:

- Increasing the standards for corporate governance to enhance its impact on regulatory efficiency and effectiveness.
- Emphasizing governance as a major component of risk analysis and assessments.
- Ensuring that financial services providers have adopted practices, policies, procedures and systems based on recognized financial sector governance standards.
- Identifying and addressing risks to regulatory objectives in the area of market conduct by using proven tools to assess market conduct of financial services providers.
- Adopting refined methods for the regulation of insurance, pension plans, credit unions/caisses populaires, mortgage entities and co-operative corporations based on the risk-based approach to regulation.

What this means to FSCO

To meet these challenges, FSCO is guided by established strategic priorities. These priorities build on the delivery of the core business activities FSCO carries out to achieve its mandate. As each is significant, FSCO's strategic priorities are not ranked in any particular order:

- I. Promote a coordinated national approach to regulatory issues.
- II. Enhance the risk-based approach to regulation.
- III. Review and recommend amendments to the regulatory framework to keep pace with changes in the marketplace.
- IV. Improve delivery of services.

FSCO believes these strategic priorities and their associated initiatives, which are outlined on the following pages, will have a positive impact on consumers and pension plan beneficiaries. The pursuit of these priorities allows FSCO to fulfill its mandate to protect financial services consumers and pension plan beneficiaries and support a healthy and competitive financial services industry in Ontario.

To fulfill its mandate, FSCO has adopted a culture of partnership and dialogue. FSCO continues to benefit from strong collaboration with consumers, industry and other stakeholders. For this reason, many projects undertaken by FSCO are complex, involving many participants and requiring implementation in conjunction with federal and provincial jurisdictions. As a result, many initiatives span several years, with work continuing on an ongoing basis.

Technology plays an important role in helping FSCO maintain strong connections with stakeholders and provide information and services to them. To this end, FSCO has embraced all aspects of e-communications, conducting business with industry electronically and offering consumers online access to services and information. FSCO believes that with improved access to information, consumers and pension plan beneficiaries will be better equipped to make wise choices and protect their interests.

FSCO's Statement of Priorities includes a report on the progress of key initiatives identified in the previous year's statement. The report back section of this year's statement lists FSCO's accomplishments in the previous year and their intended benefits to stakeholders and the regulatory system.

Our Strategic Priorities

I. Promote a coordinated national approach to regulatory issues

FSCO supports the development of harmonized regulatory solutions through participation in the Joint Forum of Financial Market Regulators (Joint Forum), the Canadian Association of Pension Supervisory Authorities (CAPSA), the Canadian Council of Insurance Regulators (CCIR) and the Canadian Insurance Services Regulatory Organizations (CISRO).

FSCO is participating with these national organizations as a member of, or in some cases as lead of, committees and project teams that are mandated to undertake the following initiatives:

Joint Forum

- Continue work related to assessing and harmonizing point of sale disclosure for Individual Variable Insurance Contracts (IVICs, also known as segregated funds) and mutual funds to ensure consumers are provided with easily understandable information on the risks and benefits of these investment products at the time of purchase.
- Examine the regulation of financial services intermediaries and recommend ways to minimize possible conflicts in regulation between sectors. Promote equivalent consumer protection, focusing initially on intermediaries who sell mutual funds and IVICs.
- Continue to develop mechanisms to allow for more effective sharing of information on regulatory enforcement issues and actions across sectors and jurisdictions to ensure regulators are alerted to serious issues which could have an immediate impact on consumers.
- Coordinate regulatory efforts on consumer information and education by creating an inventory of existing resources and content. Examine approaches taken in other jurisdictions and make recommendations for improvement.
- Continue a review of the guidelines for Capital Accumulation Plans (CAPs) released by the Joint Forum in 2004 to ensure they are meeting their intended objectives. The review will include surveys of CAP sponsors, service providers and members. Based on the results of the review, recommendations will be made for changes to the guidelines if necessary.

CCIR

- Continue to develop risk-based best practices for use by regulators across jurisdictions to address market conduct concerns.
- Review the use of electronic communications and transactions within the insurance industry to identify and address risks to consumers, regulatory gaps and legislative/regulatory barriers to the electronic provision of insurance products to consumers.
- Identify sales and claims issues related to the incidental selling of insurance. Develop and facilitate implementation of solutions to address the issues that are identified to ensure adequate protection for consumers.
- Review the various definitions that currently exist in different jurisdictions for terms such as: insurance business, solicitation and unlicensed insurance. Address the risks to consumers, regulatory gaps and legislative barriers arising from differences in these definitions.
- Working with CISRO, assess the regulation of managing general agencies, wholesale agencies and insurance adjusters, to identify and address any possible risks to consumers, regulatory gaps and legislative barriers.

CAPSA

- Finalize a proposed new multilateral agreement for the regulation of multi-jurisdictional pension plans to promote a coordinated, simplified and harmonized pension regulatory system in Canada for consideration by responsible ministers.
- Examine issues related to the application of the "prudent person" rule, giving consideration to both the assets and liabilities of pension plans to enhance protection for pension plan beneficiaries.
- Develop a common approach to pension plan funding policies, recognizing the link to fund governance to enhance the supervision and protection of pension plan assets.
- Establish consistent standards for the treatment of phased retirement, simplified pension plans and fund holder arrangements to promote a coordinated, simplified and harmonized pension regulatory system in Canada.
- Examine current approaches to regulating and supervising defined contribution pension plans with a view to identifying areas where clearer distinctions between defined contribution and defined benefit plans may be more appropriate. Consider alternative approaches to regulating and supervising defined contribution plans based on these distinctions.
- Review and determine the future role and mandate of CAPSA.

- Define a formal role for the recently formed National Compliance Officers Association, including involvement in technical training for regulatory staff, to promote a harmonized response to the handling of pension plan compliance issues.

II. Enhance the risk-based approach to regulation

- Promote the expansion of Autorité des marchés financiers (AMF) and FSCO insurance company complaint data report sharing to other regulators to create a national complaint data reporting system. This will help to ensure the consistency and accuracy of complaint data and assist regulators in accurately identifying and assessing issues in the marketplace.
- As a member of the General Insurance Statistical Agency (GISA), assist in the development of a questionnaire for auto insurers to assess the risk of non-compliance with requirements for the submission of statistical data to ensure the quality and value of statistical data generated by licensed insurers.
- Enhance the process for monitoring shortfalls in required funding remittances for defined benefit pension plans to improve protection for plan beneficiaries.
- Collect data to support the development of methods for assessing the financial strength of pension plan sponsors to enhance protection for plan beneficiaries.
- Identify and explore options for streamlining the processing of defined contribution pension plan transactions.
- Review data currently requested in pension plan regulatory filings to ensure appropriate data is being requested. As well, examine opportunities for electronic filing by pension plans to modernize the filing process.

III. Review and recommend amendments to the regulatory framework to keep pace with changes in the marketplace

- Develop a plan to implement amendments to the Credit Unions and Caisses Populaires Act, 1994, once proclaimed.
- Oversee and support the resumption and operation of the Health Claims for Auto Insurance (HCAI) database. This system allows for the electronic exchange of health claim information between health care providers and insurance companies, supporting the need for access to timely, accurate data to monitor the auto insurance system.
- As a member of GISA, participate in a review of statistical plan data to ensure the quality and value of statistical data generated from licensed insurers.
- Continue to review and finalize partial pension plan wind-ups affected by the *Monsanto* decision to ensure compliance with pension regulations to address surplus on partial wind-ups.
- Develop recommendations for changes to the current requirements for disclosure of pension plan information to increase transparency and enhance protection for pension plan beneficiaries.
- Commence a five-year review of the auto insurance system to facilitate updates and improvements to the current system.

Working with the Ministry of Finance and FSCO stakeholders to:

- Develop proposed amendments to the Co-operative Corporations Act and regulations.
- Provide assistance and support as needed to the Ontario Expert Commission on Pensions (OECF) in its examination of legislation governing the funding of defined pension plans, the rules related to pension deficits and surpluses and other issues related to the security, viability and sustainability of the pension system in Ontario.
- Review OECF recommendations to support the security, viability and sustainability of the pension system in Ontario.
- Develop material for consumers to raise public awareness of the consumer protection measures contained in the new Mortgage Brokerages, Lenders and Administrators Act, 2006.
- Review the adequacy of statutory accident benefits.
- Consider the application of the CCIR model for privilege and whistle blower protection in Ontario.

IV. Improve delivery of services

- Undertake a series of initiatives in the Pension Division to improve delivery of service.
- Proceed with technical upgrades to the Motor Vehicle Accident Claims Fund case management system to ensure the efficient delivery of services to people injured in automobile accidents who are seeking compensation through the Fund.
- Continue to implement recommendations generated as part of an operational review of FSCO dispute resolution services.
- Conduct a range of outreach activities to provide information to consumers and other stakeholders about FSCO's dispute resolution services and collect feedback from stakeholders about the services currently being provided.
- Proceed with enhancements to dispute resolution case management systems.
- Determine the feasibility of providing electronic training modules to support the training and development of FSCO Pension Division staff.

- Identify opportunities for improved efficiency and effectiveness in the provision of pension information and services to stakeholders through improved e-communications.
- Conduct a three-year review of the FSCO website to ensure it meets the communications needs of stakeholders.
- Develop an integrated finance and accounting system, including activity-based costing.

FSCO Funding

Under Section 25 of the FSCO Act, the Lieutenant Governor-in-Council may assess all entities that form part of a regulated sector with respect to all expenses and expenditures that the Ministry of Finance, the Commission and the Tribunal have incurred. The Minister of Finance is authorized to establish fees with respect to the regulated sectors for services provided by FSCO.

In determining the administration of the funding system, FSCO has established that it will:

- Be fair
- Reflect the use of FSCO resources
- Enable reasonable predictability of regulatory costs
- Be simple to administer
- Be flexible and easily modified

FSCO has also made a commitment to the following principles in carrying out its funding system:

- Revenues will not exceed forecasted expenditures for each sector;
- Disruption will be minimized and changes will take into account the effect of assessments and fees on the marketplace; and
- FSCO will be accountable to its stakeholders for the efficiency and quality of the services delivered.

Beginning this year, FSCO has begun recovering its costs from the pension sector via an annual assessment, replacing the fees that were previously paid with the Annual Information Return (AIR).

Report Back on Key Initiatives from 2007

I. Promote a coordinated national approach to regulatory issues

FSCO continued to work with other Canadian regulators in coordinating regulation of the financial services industry at the national level through the following activities:

Joint Forum

- Consulted with stakeholders on a framework for point of sale disclosure for mutual funds and IVICs. More than 85 submissions were received from stakeholders during a 120-day comment period. These submissions are being reviewed and further work is being done to address the submission comments.
- Finalized a new framework for the Financial Services OmbudsNetwork that includes guidelines for assessing the ombudservices against pre-defined public interest objectives. The framework, which is available on the Joint Forum website www.jointforum.ca, is currently being implemented.
- Identified problems resulting from differences in the investment rules for pension funds, mutual funds and other pooled investment funds. Recommendations for addressing these issues will be presented to the Joint Forum in Spring 2008.
- Completed research on the regulation of insurance intermediaries who sell IVICs. Research on the regulation of intermediaries who sell mutual funds is currently underway.
- Continued to develop mechanisms to allow for more effective sharing of information on regulatory enforcement issues across sectors and jurisdictions. The Joint Forum's Information Sharing Committee is currently considering several options for improving information sharing and cooperation between different sectors and jurisdictions.
- Coordinated regulatory efforts on consumer information and education by creating an inventory of existing resources and examining approaches taken in other jurisdictions. Work is currently underway to address the gaps that have been identified as a result of this research to ensure consumers receive adequate information about financial products and services.
- Conducted a review of the guidelines for Capital Accumulation Plans (CAPs) released by the Joint Forum in 2004, in an effort to measure the success of their implementation and determine if any additional work is required in this area. The first phase of the review, which included surveys of CAP sponsors and service providers is underway. The second phase of the review, a survey of plan members, is planned for 2008.

CAPSA

- Developed the principles of a model pension statute and model regulations related to registration and basic entitlement matters that would serve as a model for federal and provincial governments to consider when they are making amendments to their pension legislation. The principles are expected to be finalized in 2008 in preparation for consultations with stakeholders.
- Continued to work on the development of a multi-lateral agreement for the regulation of multi-jurisdictional pension plans to replace the existing 1968 Reciprocal Agreement. CAPSA's Reciprocal Agreement Committee is nearing completion of a draft multi-lateral agreement, which is expected to be released for stakeholder consultations in 2008.

CCIR

- Continued to monitor the achievement of principles for managing conflicts of interest in the insurance industry. The CCIR Industry Practices Review Committee is in the midst of a comprehensive review. The committee has conducted two surveys of insurance agents and companies to assess their knowledge and use of the principles, which are designed to increase consumer confidence in the industry.
- Carried on efforts to put forward a privilege model for documents created as part of insurer risk self-assessments and whistle-blower protection for persons who volunteer information about an insurer, insurance agent, insurance broker or insurance adjuster alleged to be engaged in wrongdoing. A CCIR committee is developing a draft of the revised privilege model and details of whistle-blower protection for release in 2008.
- Assisted regulators in the adoption of methods for collecting insurance company complaint data, with the goal of creating a national complaint reporting data system. Work will begin in 2008 to expand the platform developed by FSCO and AMF to create a national reporting system for insurance company complaints.
- Developed proposed best practices for risk-based market conduct regulation. The discussion paper *An Approach to Risk-based Market Conduct* was released for consultation with stakeholders in January 2008. Comments received during the consultation period will be used to refine the concept of a risk-based market conduct approach and its associated tools.

II. Enhance the risk-based approach to regulation

- Evaluated the requirement for all defined benefit pension plans registered with FSCO to file an Investment Information Summary (IIS) to streamline this risk-based approach to the monitoring of pension plan funds. Based on examinations of designated plans and comparative analysis, FSCO has opted to simplify the pension investment monitoring process by exempting designated plans from the requirement to file an IIS.
- Identified new sources and methods for obtaining information about the financial strength of pension plan sponsors to evaluate the safety and soundness of plans and enhance protection for plan members.
- Distributed a market conduct questionnaire to auto insurers to assess the risk of non-compliance with rate, risk classification and underwriting requirements under the Insurance Act. In November 2007, a summary of results was communicated to insurers who participated in the questionnaire and FSCO is following up with individual insurers as appropriate.
- Developed risk-based compliance examination techniques for pension plans and mortgage brokers to improve overall market conduct and pension plan governance and enhance protection for pension plan beneficiaries and consumers.
 - o Updated the pension plan risk-based selection and examination process. The new process is being tested and refinements will be made for the 2008-09 examination cycle.
 - o Mortgage broker examinations are currently being conducted and a project team has been assembled to ensure that complaints and examination procedures are in compliance with the Mortgage Brokerages, Lenders and Administrators Act, 2006 and aligned with risk-based best practices.
- Developed risk-based tools and criteria for use by staff in the review of applications from the insurance, mortgage broker and co-operative corporation sectors to assist in the identification of questionable applications or licensees and provide protection for consumers.

III. Review and recommend amendments to the regulatory framework to keep pace with changes in the marketplace

- Continued to review partial pension plan wind-ups affected by the Monsanto decision to ensure compliance with obligations to distribute surplus on partial wind-ups. To date, almost half of the approximately 300 cases have been resolved and the remaining partial wind-ups are being processed in accordance with FSCO procedures.
- Developed recommendations for changes to the requirements for disclosure of plan information to pension plan beneficiaries to increase transparency and enhance protection for plan beneficiaries. FSCO's Pension Policy Unit has identified potential changes to the member disclosure provisions of the Pension Benefits Act and regulations.

Worked with the Ministry of Finance and FSCO stakeholders to:

- Develop proposed regulations, educational standards and implement licensing requirements under the Mortgage Brokerages, Lenders and Administrators Act, 2006. Licensing began on March 1, 2008 in preparation for the new act which takes effect July 1, 2008.
- Implement changes to the Corporations Act and Insurance Act dealing with prudent portfolio investment approaches for Ontario-incorporated insurers, reciprocals and fraternal societies. The changes provide these insurers with expanded investment powers, new related party rules and ancillary corporate governance requirements.
- Develop proposed Co-operative Corporations Act and regulation amendments with the Ontario co-operative corporation sector. On August 31, 2007, sections of Schedule 8 to the Budget Measures Act (Fall), 2004, which amends the Co-operative Corporations Act, came into force, along with three Co-operative Corporations Act regulation amendments. These amendments are designed to improve co-operative corporations' ability to respond to changing market conditions and the needs of their members.
- Review the funding of defined benefit pension plans, the rules relating to pension deficits and surpluses and other issues relating to the security, viability and sustainability of the pension system in Ontario. The Superintendent, Deputy Superintendent, Pensions and FSCO staff have met with representatives of the OECF. FSCO staff have responded to requests for statistics and information as needed. They have also worked with the OECF to host a forum to discuss the roles and issues related to pension service providers.

- Transfer the responsibility for oversight of Statutory Accident Benefits representatives (paralegals) to the Law Society of Upper Canada. FSCO issued a bulletin in May 2007, outlining plans to transfer oversight of paralegals to the Law Society and encouraging them to apply to the Law Society if they wished to continue as a licensed paralegal. A working group comprised of FSCO and Ministry of Finance staff identified the regulation and operational changes required to complete the transfer to the new system on May 1, 2008.
- Review proposals from the Facility Association (FA) for changes to residual market and risk-sharing pool mechanisms to ensure that automobile insurance continues to be available to owners and licensed drivers who are unable to obtain insurance through the voluntary insurance market. In June 2007, the FA's re-design proposal was narrowly defeated in a membership vote and no proposed changes of any significance to the Plan of Operation are contemplated by the FA at this time.
- Develop an assessment process for cost recovery from the pension sector, in accordance with Section 25 of the FSCO Act. An assessment regulation and Order in Council were made and the Minister's Schedule of Required Fees was amended.
- Conduct research to determine the feasibility of developing additional Pre-Approved Framework (PAF) guidelines for the treatment of automobile accident injuries under the Statutory Accident Benefits Schedule (SABS) to improve utilization of health care services and provide certainty around cost and payment for insurers and health care providers. In October 2007, the revised PAF guidelines came into effect. FSCO will assess possible future PAF directions based on research and analysis, which will include an inventory of programs and protocols in other jurisdictions.
- Support the implementation of the HCAI database, a system that allows for the electronic exchange of health claim information between health care providers and insurance companies, supporting the need for access to timely, accurate data to monitor the auto insurance system. After introduction of the system early in 2008, HCAI decided to suspend its operation in order to improve some of the technical functions and business processes. Discussions of the best method to implement these improvements are expected to continue in 2008.
- Develop recommendations for the Ministry of Finance on updating Regulation 283/95, Disputes Between Insurers, to ensure that claimants are appropriately protected and have access to statutory accident benefits when two or more insurers are disputing which one has the responsibility to pay. FSCO consulted with stakeholders, analyzed their responses and formulated recommendations for submission to the Ministry of Finance.
- Assist with the introduction of a new proposed Life Income Fund (LIF) to increase income for seniors in retirement by enhancing access to locked-in retirement accounts. Regulation 416/07 received Royal Assent on July 27, 2007. The regulation introduced a new LIF effective January 1, 2008, and removed the requirement to convert an existing LIF to an annuity at age 80. The new regulation also permits partial unlocking of funds that are transferred to a new LIF. To help consumers navigate the new fund, FSCO staff developed LIF frequently asked questions and answers, new forms for the withdrawal of monies and revised existing policies to incorporate the changes.
- Develop a framework for a five-year review of the auto insurance system to facilitate updates and improvements to the current system. The five-year review, required under Section 289.1, Part VI of the Insurance Act, is scheduled to begin by October 1, 2008.

IV. Improve delivery of services

- Implemented recommendations resulting from an internal review of dispute resolution processes to ensure the delivery of dispute resolution services in the most effective manner possible. Significant progress has been made in implementing the changes recommended in the operational review. Additional recommendations will be put into practice during the 2008-09 fiscal year.
- Proceeded with upgrades to compliance and enforcement tracking procedures to enhance the risk-based approach to regulation and improve the delivery of services. The Information Technology Section worked with the Auto Insurance Compliance Unit, Pension Plans Branch, the Investigations Unit and Legal Services Branch to develop and implement a new computerized case management system for tracking compliance and enforcement files in these sectors. This system will serve as a model for enforcement activity in other sectors.
- Analyzed opportunities for instituting electronic filing methods to facilitate the submission of filings electronically by the insurance sector.
- Continued with the second phase of enhancements and upgrades to the FSCO website to advance FSCO's provision of electronic services and information to consumers and other stakeholders. Features added include the user-friendly Frequently Asked Questions pages, the Mortgage Brokers e-Info newsletter and Monitoring & Enforcement Online (M&E Online). M&E Online replaces the quarterly paper bulletins sent to stakeholders reporting on prosecution activities, decisions arising out of hearings and other regulatory activities (with the exception of those in the pension sector which are reported in the Pension e-Bulletin).

The Financial Services Tribunal

The Financial Services Tribunal (the Tribunal) is an independent, adjudicative body composed of nine to 15 members (14 members as of April 1, 2008), including the chair and two vice-chairs of the Commission.

The Tribunal has exclusive jurisdiction to exercise the powers conferred under the FSCO Act and other acts that confer powers on or assign duties to the Tribunal. It also has exclusive jurisdiction to determine all questions of fact or law that arise in any proceeding before it.

As well, the Tribunal has authority to make rules for the practices and procedures to be observed in a proceeding before it, and to order a party to a proceeding before it to pay the costs of another party or the Tribunal's costs of the proceeding.

For the year ahead the Tribunal has identified the following priorities:

- Review, and if appropriate, revise the conflict of interest rules and guidelines applicable to the Tribunal in accordance with the new Public Service of Ontario Act.
- Continue to ensure that appropriate expertise is available and allocated to panels appointed to hear Tribunal matters including retention of qualified experts and the provision of appropriate supplementary training.

- Continue dialogue with and receipt of input from members of the legal profession who may deal with the Tribunal by reconstituting the Tribunal's legal advisory committee and updating its terms of reference as appropriate.

Conclusion

This statement details FSCO's proposed activities and projects for 2008 and provides a report back on key initiatives from 2007. Throughout the development of these priorities, we recognize our responsibility and commitment to our stakeholders to exercise care and to be accountable for the use of resources entrusted to us.

FSCO continues to benefit from strong partnerships with stakeholders to achieve its objectives. We look forward to working with our many partners in the upcoming fiscal year. Together, we can foster a healthy financial services marketplace where consumers are protected and competition thrives.

Commission des services financiers de l'Ontario

ÉNONCÉ DES PRIORITÉS

Juin 2008

Introduction

La Commission des services financiers de l'Ontario (CSFO) est un organisme de réglementation institué par la *Loi de 1997 sur la Commission des services financiers de l'Ontario* (Loi sur la CSFO).

En vertu de l'article 11 de la Loi sur la CSFO, la CSFO doit remettre au ministre des Finances et faire publier dans la *Gazette de l'Ontario*, au plus tard le 30 juin de chaque année, « une déclaration énonçant les priorités que la Commission se propose de suivre pendant l'exercice pour l'application de la présente loi et de toutes les autres lois qui confèrent des pouvoirs ou attribuent des fonctions à la Commission ou au surintendant, ainsi qu'un résumé des raisons pour lesquelles elle a adopté les priorités ».

Le présent document constitue le onzième Énoncé des priorités de la CSFO. Il présente les principaux défis que doit relever la CSFO, décrit les priorités d'ordre stratégique prévues pour l'exercice à venir et fait état des récents progrès accomplis dans le cadre des projets importants.

Trois entités composent la CSFO : la Commission, constituée de cinq personnes, le surintendant des services financiers et son équipe et le Tribunal des services financiers. La CSFO réglemente les assurances, les régimes de retraite, les sociétés de prêt et de fiducie, les credit unions et caisses populaires, les entités du secteur des prêts hypothécaires et les sociétés coopératives de l'Ontario.

Au 1^{er} mars 2008, la CSFO réglementait ou avait inscrit 394 compagnies d'assurance, 7 755 régimes de retraite, 207 credit unions et caisses populaires, 55 sociétés de prêt et de fiducie, 1 290 courtiers en prêts hypothécaires et 1 610 coopératives, ainsi qu'environ 39 700 agents d'assurance, 4 040 agences d'assurance constituées en personne morale et 1 145 experts d'assurance.

La *Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires* et les administrateurs d'hypothèques devrait entrer en vigueur le 1^{er} juillet 2008. À compter de cette date, toute personne ou entité qui se livre en Ontario à des activités de courtage d'hypothèques, d'opérations hypothécaires, d'administration d'hypothèques ou qui exerce des activités de prêts hypothécaires, et tout particulier qui exerce des activités de courtage ou d'opérations hypothécaires en Ontario contre rémunération, doivent être titulaires d'un permis délivré par la CSFO, à moins d'être dispensés de ce permis. La CSFO délivrera les permis de maisons de courtage d'hypothèques, de courtiers et d'agents en hypothèques et d'administrateurs d'hypothèques.

L'Ontario continue d'actualiser sa réglementation financière et opérationnelle afin de conserver un climat commercial attirant, de suivre le rythme des marchés mondiaux et d'accroître l'avantage économique de l'Ontario. Un cadre de réglementation concurrentiel protège les consommateurs et les investisseurs et soutient un climat commercial favorable ainsi que la croissance de l'économie.

Notre mandat

Afin de protéger l'intérêt public et d'accroître la confiance du public dans les secteurs réglementés, la CSFO fournit des services de réglementation qui protègent les consommateurs de services financiers et les bénéficiaires de régimes de retraite et soutiennent un secteur des services financiers sain et concurrentiel.

Notre vision

La CSFO s'engage à demeurer un organisme de réglementation vigilant, équitable et proactif dont la présence au sein du marché des services financiers de l'Ontario est constructive et réceptive.

Nos valeurs

Tout organisme est l'expression des valeurs communes de ses membres. La CSFO s'est engagée à l'égard des valeurs énoncées ci-après.

Professionalisme	Dans l'exercice de nos fonctions, nous nous efforçons d'atteindre les normes de conduite, de compétences et d'intégrité les plus élevées.
Impartialité	Nous nous efforçons de traiter nos intervenants de façon équitable et nous faisons preuve d'impartialité dans notre milieu de travail.
Équité	Nous nous efforçons de soupeser équitablement les intérêts du public, y compris des consommateurs et des intervenants réglementés.
Responsabilisation	Nous veillons au respect des politiques et des objectifs du gouvernement provincial.
Excellence	Nous agissons du mieux que nous pouvons dans tout ce que nous faisons.
Respect	Nous apprécions et traitons chaque personne avec respect et dignité dans toutes nos activités.
Travail d'équipe	Nous collaborons dans un esprit d'équipe en vue de servir les consommateurs, le gouvernement et nos intervenants.

Principaux défis

La CSFO procède à des exercices de planification afin d'établir ses priorités stratégiques actuelles et futures conformément à ses objectifs. Pour être efficace, ce processus doit tenir compte de facteurs extérieurs qui modèlent l'industrie des services financiers. Cette année, la CSFO a continué de relever les défis énoncés ci après.

Mondialisation

La tendance soutenue vers la mondialisation et le regroupement international dans les secteurs financiers estompe les frontières de compétence. Aujourd'hui, les fournisseurs de services financiers peuvent atteindre les consommateurs grâce à Internet et aux technologies de commerce électronique et dépendent moins des modèles commerciaux traditionnels fondés sur des succursales locales. Cette évolution a mené à des regroupements et des fusions entre institutions financières, à l'augmentation du nombre de multinationales fournissant des services financiers et à une transformation des modes de prestation des services. Dans ce marché mondial en ligne, les entreprises ne se limitent plus à un ou deux secteurs d'activité et peuvent offrir un vaste éventail de services financiers, pour la plupart assujettis à des régimes de réglementation distincts.

Sous l'influence de ces facteurs, la production, la commercialisation et la prestation des produits financiers ont également changé, ce qui a mené à une multiplication accrue des questions liées à la réglementation. Le nouveau marché sans frontières rendu possible par la technologie incite les autorités de réglementation des services financiers à adopter une démarche globale intersectorielle et pangouvernementale en matière de réglementation.

Conditions du marché

Plusieurs défis économiques de taille continuent d'avoir des répercussions sur l'économie ontarienne et contribuent à l'incertitude au sein des marchés. L'augmentation des prix du pétrole, la hausse du dollar canadien et des perspectives économiques préoccupantes aux États-Unis ont mené à une revue à la baisse de la croissance économique prévue en Ontario. Pour relever ces défis, il est essentiel que les autorités de réglementation saisissent bien les réalités du marché afin de mesurer et de gérer efficacement les risques.

Protection et information des consommateurs

L'innovation technologique dans le marché des services financiers habilite les consommateurs en leur donnant un choix inégalé de produits et services. Tout en offrant des possibilités accrues, un marché plus diversifié peut aussi par sa complexité faire qu'il soit plus difficile pour les consommateurs d'effectuer des choix éclairés. Les consommateurs font de plus en plus appel à l'aide de professionnels pour prendre des décisions financières.

Renouvellement de la réglementation

Outre les questions et les faits nouveaux qui surgissent dans les divers secteurs réglementés, la CSFO tient également compte d'autres variables influant sur ses responsabilités en tant qu'autorité de réglementation. Ces responsabilités sont notamment :

- Accroître les normes de gouvernance d'entreprise afin d'améliorer leur incidence sur l'efficacité et l'efficacé de la réglementation.
- Souligner le rôle prépondérant de la gouvernance dans les analyses et les évaluations des risques.
- Veiller à ce que les fournisseurs de services financiers aient en place des pratiques, des politiques, des procédures et des systèmes fondés sur des normes de gouvernance reconnues dans le secteur financier.
- Repérer les risques touchant les objectifs de la réglementation dans le domaine des pratiques de l'industrie et y répondre en utilisant des instruments éprouvés pour évaluer les pratiques des fournisseurs de services financiers.
- Adopter des méthodes affinées pour la réglementation du secteur de l'assurance, des régimes de retraite, des crédits unions et des caisses populaires, des entités du secteur des prêts hypothécaires et des coopératives, en se fondant sur l'approche axée sur le risque en matière de réglementation.

Enjeux pour la CSFO

Afin de surmonter ces défis, la CSFO a établi des priorités stratégiques. Ces priorités reposent sur l'exécution des principales activités que la Commission mène en vue de s'acquitter de son mandat. Chacune étant d'égale importance, ces priorités ne sont pas énumérées ici dans un ordre particulier :

- I. Promouvoir une approche nationale coordonnée en matière de réglementation.
- II. Améliorer l'approche axée sur le risque en matière de réglementation.
- III. Étudier et recommander des modifications au cadre réglementaire de façon à suivre le rythme de l'évolution des marchés.
- IV. Améliorer la prestation des services.

La CSFO estime que ces priorités stratégiques et les initiatives décrites ci-après qui y sont associées seront bénéfiques pour les consommateurs et les bénéficiaires de régimes de retraite. En se concentrant sur ces priorités, la CSFO sera en mesure de s'acquitter de son mandat, à savoir protéger les consommateurs de services financiers et les bénéficiaires de régimes de retraite, tout en soutenant une industrie des services financiers saine et concurrentielle en Ontario.

Pour exécuter son mandat, la CSFO a instauré une culture du partenariat et du dialogue. Elle continue de bénéficier d'une étroite coopération avec les consommateurs, les acteurs de l'industrie et d'autres intervenants. Pour cette raison, un grand nombre de projets entrepris par la CSFO sont complexes, dans la mesure où ils nécessitent la participation de nombreux intervenants et doivent être menés en collaboration avec le gouvernement fédéral et d'autres administrations provinciales. Par conséquent, la mise en œuvre de nombreuses initiatives s'échelonne de façon continue sur plusieurs années.

La technologie joue un rôle important dans le maintien de rapports solides entre la CSFO et ses intervenants. C'est grâce à elle que la Commission communique des renseignements aux intervenants et leur offre des services. À cette fin, la CSFO utilise toutes les formes de communications électroniques, menant des affaires avec les membres de l'industrie par voie électronique et offrant aux consommateurs un accès en ligne aux services et aux informations. La CSFO est convaincue que si les consommateurs et les bénéficiaires de régimes de retraite ont un meilleur accès à l'information, ils seront mieux équipés pour faire des choix avisés et protéger leurs intérêts.

L'Énoncé des priorités de la CSFO inclut un rapport sur les initiatives principales annoncées dans l'Énoncé de l'exercice précédent. Ce rapport, situé à la fin du présent document, énumère les réalisations accomplies au cours de l'année écoulée et leurs avantages escomptés pour les intervenants et le système de réglementation.

Priorités stratégiques de la CSFO

I. Promouvoir une approche nationale coordonnée en matière de réglementation

La CSFO, favorable à l'élaboration de solutions de réglementation harmonisées, participe au Forum conjoint des autorités de réglementation du marché financier (Forum conjoint), à l'Association canadienne des organismes de contrôle des régimes de retraite (ACOR), au Conseil canadien des responsables de la réglementation d'assurance (CCRRA) et aux Organisations d'encadrement des services d'assurance du Canada (OESAC).

La CSFO collabore avec ces organismes nationaux à titre de membre ou, dans certains cas, de responsable de comités et d'équipes de projets mandatés pour entreprendre les initiatives décrites ci-après :

Forum conjoint

- Continuer les travaux entrepris en vue d'évaluer et d'harmoniser la divulgation aux points de vente pour les contrats individuels à capital variable (les CICV, également connus sous le nom de fonds distincts) et les fonds communs de placement, de manière à ce que les consommateurs reçoivent au moment de l'achat de l'information facilement compréhensible sur les risques et les avantages de ces produits d'investissement.
- Examiner la réglementation des intermédiaires des services financiers et recommander des moyens de minimiser les divergences possibles dans la réglementation d'un secteur à un autre. Promouvoir une protection égale des consommateurs, en mettant au départ l'accent sur les intermédiaires qui vendent des fonds communs de placement et des contrats individuels à capital variable.
- Continuer d'élaborer des mécanismes afin de partager plus efficacement entre secteurs et administrations l'information sur les questions d'exécution des règlements et les mesures prises, de manière à veiller à ce que les autorités de réglementation soient alertées des problèmes graves qui pourraient avoir une incidence immédiate sur les consommateurs.
- Coordonner les efforts de réglementation concernant l'information et la sensibilisation des consommateurs en créant un inventaire des ressources existantes et de leur contenu. Examiner les systèmes mis en place dans d'autres administrations et formuler des recommandations en vue d'améliorations.
- Poursuivre un examen des lignes directrices relatives aux régimes de capitalisation publiées par le Forum conjoint en 2004, pour vérifier si elles atteignent les objectifs fixés. L'examen comprendra des sondages auprès des répondants, des fournisseurs de services et des participants à ces régimes. À partir des résultats ainsi obtenus, des recommandations seront formulées en vue de l'apport de modifications aux lignes directrices, s'il y a lieu.

CCRRA

- Continuer d'élaborer des pratiques exemplaires axées sur le risque et applicables par les autorités de réglementation de toutes les administrations en réponse aux préoccupations à l'égard des pratiques de l'industrie.
- Étudier l'utilisation des communications et transactions électroniques au sein de l'industrie des assurances afin de repérer les risques pour les consommateurs, les lacunes en matière de réglementation et les obstacles législatifs et réglementaires à la prestation électronique des produits d'assurance aux consommateurs, et d'y remédier.
- Repérer les problèmes liés aux ventes et aux demandes de règlement qui se rapportent à la vente ponctuelle de polices d'assurance. Élaborer et faciliter la mise en œuvre de solutions afin de régler les problèmes détectés de manière à assurer une protection suffisante des consommateurs.
- Étudier les diverses définitions appliquées par différentes administrations de termes comme « activités d'assurance », « sollicitation » et « exercice du métier d'agent d'assurance sans permis ». Faire face aux risques encourus par les consommateurs, aux lacunes au niveau de la réglementation et aux obstacles législatifs qui découlent des différences au niveau de ces définitions.

- En collaboration avec les OESAC, évaluer la réglementation de la gestion des agences générales, des agences de courtage en gros et des experts d'assurance, afin de repérer tout risque potentiel pour les consommateurs, les lacunes au niveau de la réglementation et les obstacles législatifs, et d'y remédier.

ACOR

- Parachever un projet de nouvelle entente multilatérale visant la réglementation des régimes de retraite à lois d'application multiples pour promouvoir un système coordonné, simplifié et harmonisé de réglementation des régimes de retraite au Canada; l'entente proposée sera présentée aux ministres responsables aux fins d'examen.
- Examiner les questions liées à l'application de la règle de la « personne prudente », en tenant compte de l'actif et du passif des régimes de retraite afin d'améliorer la protection des bénéficiaires de ces régimes.
- Élaborer une démarche commune relativement aux règles de financement des régimes de retraite, en reconnaissant le lien avec la gouvernance des fonds, en vue d'améliorer la supervision et la protection de l'actif des régimes de retraite.
- Établir des normes uniformes pour le traitement des retraites progressives, des régimes de retraite simplifiés et des ententes avec les détenteurs de fonds de retraite afin de promouvoir un système coordonné, simplifié et harmonisé de réglementation des régimes de retraite au Canada.
- Examiner les approches actuelles en matière de réglementation et de supervision des régimes de retraite à cotisations déterminées en vue de déterminer les secteurs où il serait peut être préférable d'établir plus distinctement les différences entre les régimes à cotisations déterminées et ceux à prestations déterminées. Envisager en fonction de ces différences des démarches de remplacement relativement à la réglementation et à la supervision des régimes à cotisations déterminées.
- Étudier et déterminer le rôle et le mandat futurs de l'ACOR.
- Définir le rôle officiel de l'association nationale des agents chargés de la conformité, qui vient d'être formée, y compris sa participation à la formation technique du personnel chargé de la réglementation, en vue de promouvoir une réponse harmonisée au traitement des questions touchant la conformité des régimes de retraite.

II. Améliorer l'approche axée sur le risque en matière de réglementation

- Promouvoir l'élargissement à d'autres autorités de réglementation du système de l'Autorité des marchés financiers (AMF) et de la CSFO pour le partage des données sur les plaintes reçues par les compagnies d'assurance, et ce, en vue de créer un système national de communication de ces données. On pourra ainsi veiller plus facilement à l'uniformité et l'exactitude des données sur les plaintes et aider les autorités de réglementation à déterminer et évaluer précisément les problèmes au sein du marché.
- À titre de membre de l'Agence statistique d'assurance générale (ASAG), contribuer à l'élaboration d'un questionnaire à l'intention des assureurs automobiles pour évaluer le risque de non conformité avec les exigences relatives à la présentation des données statistiques, de manière à garantir la qualité et la valeur des données statistiques générées par les compagnies d'assurance autorisées.
- Améliorer le processus de surveillance des insuffisances au niveau des versements exigés pour la capitalisation de régimes de retraite à prestations déterminées, afin de renforcer la protection des participants aux régimes de retraite.
- Recueillir des données à l'appui de l'élaboration des méthodes permettant d'évaluer la santé financière des répondants des régimes de retraite, afin de renforcer la protection des participants aux régimes de retraite.
- Définir et étudier les options qui permettraient de rationaliser le traitement des opérations des régimes de retraite à cotisations déterminées.
- Réviser les données actuellement exigées dans les documents que les régimes de retraite doivent déposer en vertu de la réglementation, afin de veiller à ce que les données exigées soient pertinentes. Examiner les possibilités de dépôt électronique par les régimes de retraite afin de moderniser le processus de dépôt.

III. Étudier et recommander des modifications au cadre réglementaire de façon à suivre le rythme de l'évolution des marchés

- Préparer un plan de mise en œuvre des modifications à la *Loi de 1994 sur les caisses populaires et les credit unions*, une fois qu'elles auront été adoptées.
- Surveiller et soutenir la remise en service et l'exploitation du Système de demandes de règlement pour soins de santé liés à l'assurance-automobile; il s'agit d'une base de données permettant l'échange électronique de renseignements sur des demandes de prestations de maladie entre fournisseurs de soins de santé et compagnies d'assurance, qui répond au besoin d'accéder à des données récentes et exactes afin de surveiller le système d'assurance-automobile.
- Participer en qualité de membre de l'ASAG à l'examen des données du plan statistique pour garantir la qualité et la valeur des données statistiques provenant des compagnies d'assurance autorisées.
- Continuer à examiner et à parachever les liquidations partielles de régimes de retraite touchées par la décision Monsanto, afin d'assurer l'observation de la réglementation relative aux régimes de retraite pour ce qui a trait à la répartition des fonds excédentaires en cas de liquidation partielle.
- Formuler des recommandations de changements à apporter aux obligations actuelles concernant la divulgation de l'information sur les régimes de retraite afin d'accroître la transparence et d'améliorer la protection des bénéficiaires des régimes.
- Entreprendre un examen de cinq ans du système d'assurance-automobile afin de faciliter l'actualisation et l'amélioration du système actuel.
- Collaborer avec le ministère des Finances et les intervenants de la CSFO aux fins suivantes :

- Élaborer des propositions de modifications à la *Loi sur les sociétés coopératives* et aux règlements qui s'y rattachent.
- Aider et soutenir la Commission ontarienne d'experts en régimes de retraite dans l'examen des lois qui régissent la capitalisation des régimes de retraite à prestations déterminées, des règles relatives aux déficits et aux excédents des régimes ainsi que d'autres questions liées à la sécurité, la viabilité et la durabilité du système de régimes de retraite de l'Ontario.
- Étudier les recommandations de la Commission d'experts en régimes de retraite selon les besoins pour soutenir la sécurité, la viabilité et la durabilité du système de régimes de retraite de l'Ontario.
- Élaborer du matériel pour mieux sensibiliser le public aux mesures de protection des consommateurs contenues dans la *Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques*.
- Examiner le caractère approprié des indemnités d'accident légales.
- Envisager l'application du modèle du CCRRA pour la protection des données privilégiées et des dénonciateurs en Ontario.

IV. Améliorer la prestation des services

- Entreprendre une série d'initiatives au sein de la Division des régimes de retraite afin d'améliorer la prestation de services.
- Poursuivre les mises à niveau techniques du système de gestion des dossiers du Fonds d'indemnisation des victimes d'accidents de véhicules automobiles afin de garantir la prestation efficace des services aux personnes blessées dans des accidents d'automobile qui demandent des indemnités par l'intermédiaire du Fonds.
- Poursuivre la mise en œuvre des recommandations formulées dans le cadre de l'examen opérationnel des services de règlement des différends de la CSFO.
- Accomplir toute une gamme d'activités de sensibilisation afin de renseigner les consommateurs et les autres intervenants sur les services de règlement des différends de la CSFO et recueillir de la rétroaction des intervenants sur les services actuellement fournis.
- Poursuivre les améliorations aux systèmes de gestion des dossiers relatifs au règlement des différends.
- Déterminer la faisabilité de la mise en place de modules de formation en ligne pour soutenir la formation et le perfectionnement du personnel de la Division des régimes de retraite de la CSFO.
- Cerner les possibilités d'amélioration de l'efficacité et de l'efficacé dans la fourniture aux intervenants de services et d'information sur les régimes de retraite par de meilleures communications électroniques.
- Effectuer un examen triennal du site Web de la CSFO pour veiller à ce qu'il réponde aux besoins des intervenants en matière de communications.
- Élaborer un système comptable et financier intégré, s'appuyant notamment sur la comptabilité par activités.

Financement de la CSFO

En vertu de l'article 25 de la *Loi de 1997 sur la Commission des services financiers*, le lieutenant-gouverneur en conseil peut imposer à toutes les entités qui font partie d'un secteur réglementé une cotisation relativement aux frais et dépenses engagés par le ministère des Finances, la Commission et le Tribunal. Par ailleurs, le ministre des Finances est autorisé à fixer des droits applicables aux secteurs réglementés pour les services fournis par la CSFO.

La CSFO a décidé que l'administration du système de financement :

- serait équitable;
- refléterait l'utilisation des ressources de la CSFO;
- permettrait une prévisibilité raisonnable des frais réglementaires;
- serait simple à gérer;
- serait souple et facile à modifier.

La CSFO s'est également engagée à respecter les principes suivants en matière d'administration du système de financement :

- les revenus ne doivent pas excéder les dépenses prévues pour chaque secteur;
- les perturbations seront minimales et les modifications tiendront compte de l'effet des cotisations et des droits sur le marché;
- la CSFO sera redevable auprès des intervenants de l'efficacité et de la qualité des services rendus.

À compter du présent exercice, la CSFO a commencé à recouvrer les coûts liés au secteur des régimes de retraite par une cotisation annuelle remplaçant les droits auparavant versés avec le relevé annuel.

Rapport sur les initiatives principales de 2007

I. Promouvoir une approche nationale coordonnée en matière de réglementation

La CSFO a continué à travailler, avec d'autres autorités de réglementation canadiennes, à la coordination de la réglementation du secteur des services financiers à l'échelle du pays, en accomplissant les activités suivantes :

Forum conjoint

- A consulté les intervenants relativement à un cadre sur la divulgation aux points de vente concernant les fonds communs de placement et les contrats individuels à capital variable (CICV). Plus de 85 mémoires ont été reçus des intervenants pendant la période de 120 jours prévue pour la réception des commentaires. Ces mémoires ont été étudiés et des travaux supplémentaires sont en cours pour tenir compte des observations formulées.
- A parachevé pour le Réseau de conciliation du secteur financier un nouveau cadre comprenant des lignes directrices relatives à l'évaluation des services de conciliation en fonction d'objectifs prédéfinis d'intérêt public. Le cadre, que l'on peut consulter sur le site Web du Forum conjoint (www.jointforum.ca) est en cours de mise en œuvre.
- A défini les problèmes causés par les différences entre les règles de placement régissant les caisses de retraite, les fonds communs de placement et d'autres types de fonds de placement collectif. Des recommandations seront présentées au Forum conjoint au printemps 2008 afin de répondre à ces problèmes.
- A achevé des recherches sur la réglementation des intermédiaires d'assurance qui vendent des CICV. Une étude sur la réglementation des intermédiaires qui vendent des fonds communs de placement est en cours.
- A continué d'élaborer des mécanismes afin de partager plus efficacement entre secteurs et administrations l'information sur les questions d'exécution de la réglementation. Le comité de partage de l'information du Forum conjoint étudie actuellement plusieurs options en vue d'améliorer le partage de l'information et la coopération entre les différents secteurs et les diverses administrations.
- A coordonné les efforts de réglementation concernant l'information et la sensibilisation des consommateurs en créant un inventaire des ressources existantes et en examinant les démarches adoptées dans d'autres administrations. Des travaux sont en cours pour combler les lacunes mises en évidence dans le cadre de ces recherches de manière à ce que les consommateurs reçoivent l'information pertinente sur les produits et services financiers.
- A effectué un examen des lignes directrices relatives aux régimes de capitalisation (plans d'accumulation de capital) publiées par le Forum conjoint en 2004, dans l'objectif d'évaluer leur mise en œuvre et de déterminer s'il reste encore des mesures à prendre dans ce domaine. La première étape de l'examen, qui comprend des sondages auprès des répondants et des fournisseurs de services de ces régimes, est en cours. La deuxième étape, un sondage auprès des participants aux régimes, est prévue en 2008.

ACOR

- A élaboré les principes soutenant un modèle de loi sur les retraites et des modèles de règlements connexes relatifs aux questions touchant l'enregistrement et les droits de base, dont s'inspireraient les gouvernements fédéral et provinciaux lorsqu'ils envisagent de modifier leurs lois en matière de retraite. Les principes devraient être parachevés en 2008 en préparation pour des consultations auprès des intervenants.
- A poursuivi les efforts en vue de l'élaboration d'un accord multilatéral en matière de réglementation des régimes de retraite à lois d'application multiples. Cette entente devrait remplacer l'accord réciproque existant de 1968. Le Comité de l'ACOR sur l'accord de réciprocité est sur le point d'achever une ébauche d'accord multilatéral, qui devrait être publiée en vue des consultations auprès des intervenants en 2008.

CCRRA

- A continué de surveiller la conformité avec les principes de gestion des conflits d'intérêts dans l'industrie des assurances. Le Comité de révision des pratiques de l'industrie du CCRRA est actuellement en plein milieu d'un examen complet. Le comité a effectué deux sondages auprès des compagnies et des agents d'assurance pour évaluer leurs connaissances et leur application des principes, conçus pour accroître la confiance des consommateurs dans l'industrie.
- A poursuivi les efforts afin de présenter un modèle de protection des données privilégiées pour les documents créés dans le cadre des auto-évaluations des risques de l'assureur, et de protection des dénonciateurs pour les personnes qui communiquent volontairement des renseignements sur un assureur, un agent d'assurance, un courtier ou un expert d'assurance qui, selon les allégations, se livrerait à des activités illégales. Un comité du CCRRA élabore une ébauche du modèle révisé de protection des données privilégiées et formule les détails du cadre de protection des dénonciateurs en vue de leur publication en 2008.
- A aidé les autorités de réglementation dans l'adoption de méthodes de collecte des données sur les plaintes reçues par les compagnies d'assurance, en vue de créer un système national pour la communication de ces données. Des travaux débiteront en 2008 pour élargir la plate forme établie par la CSFO et l'AMF en vue de créer un tel système national.
- A élaboré des propositions de pratiques exemplaires pour la réglementation axée sur le risque des pratiques de l'industrie. Le document de travail intitulé *Approche de réglementation des pratiques de l'industrie axée sur le risque* a été publié à des fins de consultation auprès des intervenants en janvier 2008. Les observations reçues pendant la période de consultation serviront à affiner le concept d'une démarche de réglementation axée sur le risque des pratiques de l'industrie et les outils connexes.

II. Améliorer l'approche axée sur le risque en matière de réglementation

- A évalué l'obligation pour tous les régimes de retraite à prestations déterminées inscrits auprès de la CSFO de déposer un Sommaire des renseignements sur les placements en vue de rationaliser cette méthode axée sur le risque utilisée pour surveiller les fonds des caisses de retraite. À partir de l'examen de régimes désignés et d'une analyse comparative, la CSFO a décidé de simplifier le processus de surveillance des placements des caisses de retraite en exemptant les régimes désignés de l'obligation de déposer un Sommaire des renseignements sur les placements.

- A déterminé de nouvelles sources et méthodes permettant d'obtenir de l'information sur la vigueur financière des répondants des régimes de retraite en vue d'évaluer la bonne santé et la viabilité des régimes et d'améliorer la protection des participants aux régimes.
- A distribué un questionnaire sur les pratiques du marché aux assureurs automobiles afin d'évaluer le risque de non-satisfaction des exigences relatives aux tarifs, au classement des risques et à la souscription découlant de la *Loi sur les assurances*. En novembre 2007, un résumé des résultats a été communiqué aux assureurs qui avaient répondu au questionnaire, et la CSFO assure actuellement le suivi auprès de certains assureurs, suivant les besoins.
- A élaboré des techniques d'examen de la conformité axées sur le risque pour les régimes de retraite et les courtiers en hypothèques afin d'améliorer les pratiques générales de l'industrie, la gestion des régimes de retraite ainsi que la protection des participants aux régimes de retraite et des consommateurs.
- A modernisé le processus axé sur le risque de sélection et d'examen des régimes de retraite. Le nouveau processus est en cours d'essai et des retouches seront apportées en vue du cycle d'examen 2008-2009.
- Des examens des courtiers en hypothèques sont en place, et une équipe de projet a été formée pour veiller à ce que les procédures liées aux examens et aux plaintes soient conformes à la *Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques* et aux pratiques exemplaires axées sur le risque.
- A élaboré des outils et des critères axés sur le risque applicables par le personnel au cours de l'examen des demandes provenant des secteurs des assurances, des courtiers en hypothèques et des coopératives afin d'aider à la détection des demandes ou des personnes titulaires de permis douteux et de protéger les consommateurs.

III. Étudier et recommander des modifications au cadre réglementaire de façon à suivre le rythme de l'évolution des marchés

- A continué à examiner les liquidations partielles de régimes de retraite touchées par la décision Monsanto, afin d'assurer le respect de l'obligation de répartir les fonds excédentaires en cas de liquidation partielle. À ce jour, environ la moitié des quelque 300 dossiers ont été réglés et le reste des liquidations partielles est traité conformément aux procédures de la CSFO.
- A formulé des recommandations pour les changements à apporter aux obligations concernant la divulgation de l'information sur les régimes de retraite aux bénéficiaires afin d'accroître la transparence et d'améliorer la protection de ces derniers. L'Unité des politiques des régimes de retraite de la CSFO a défini des changements qui pourraient être apportés aux dispositions relatives à la divulgation aux participants de la *Loi sur les régimes de retraite* et des règlements connexes.

La CSFO a collaboré avec le ministère des Finances et des intervenants de la Commission à l'exécution des activités suivantes :

- Élaborer des règlements et des normes relatives à la formation et mettre en œuvre des exigences en matière de délivrance de permis en vertu de la *Loi de 2006 sur les maisons de courtage d'hypothèques, les prêteurs hypothécaires et les administrateurs d'hypothèques*. La délivrance de permis a débuté le 1^{er} mars 2008 en vue de l'entrée en vigueur de la loi le 1^{er} juillet 2008.
- Mettre en œuvre des modifications à la *Loi sur les sociétés coopératives* et à la *Loi sur les assurances* qui portent sur des approches prudentes relativement aux placements de portefeuille à l'intention des assureurs constitués en personne morale en Ontario, des assureurs réciproques et des sociétés fraternelles. Ces modifications élargissent les pouvoirs de ces assureurs relativement à l'investissement et introduisent de nouvelles règles relatives aux apparentés et des exigences auxiliaires auxquelles ces sociétés sont soumises en ce qui a trait à la gouvernance d'entreprise.
- Élaborer des propositions de modifications à la *Loi sur les sociétés coopératives* et à la réglementation qui s'y rattache avec le secteur ontarien des sociétés coopératives. Le 31 août 2007, sont entrés en vigueur des articles de l'annexe 8 de la *Loi de 2004 sur les mesures budgétaires (automne)*, qui modifie la *Loi sur les sociétés coopératives*, de même que trois modifications à la réglementation prise en application de la *Loi sur les sociétés coopératives*. Ces modifications visent à améliorer la capacité des coopératives à réagir aux conditions changeantes du marché et aux besoins de leurs membres.
- Examiner la capitalisation des régimes de retraite à prestations déterminées, les règles relatives aux déficits et aux excédents de ces régimes ainsi que d'autres questions liées à la sécurité, la viabilité et la durabilité du système de régimes de retraite de l'Ontario. Le surintendant, le surintendant adjoint des régimes de retraite et le personnel de la CSFO ont rencontré des représentants de la Commission ontarienne d'experts en régimes de retraite. Le personnel de la CSFO a répondu suivant les besoins à des demandes de statistiques et de renseignements. Il a également travaillé avec la Commission d'experts en régimes de retraite à l'organisation d'un forum visant à discuter des rôles et des questions se rapportant aux fournisseurs de services liés aux pensions.
- Transférer la responsabilité de la surveillance des représentants en vertu de l'Annexe sur les indemnités d'accident légales (parajuristes) au Barreau du Haut-Canada. La CSFO a publié en mai 2007 un bulletin présentant le projet de transfert de la surveillance des parajuristes au Barreau et encourageant les parajuristes qui désirent se voir accorder un permis pour continuer d'exercer à déposer une demande dans ce sens devant le Barreau. Un groupe de travail formé de représentants de la CSFO et du ministère des Finances a défini les changements opérationnels et les modifications à apporter à la réglementation qui sont nécessaires pour achever le transfert vers le nouveau système au 1^{er} mai 2008.
- Évaluer des propositions de la Facility Association (FA) en vue de changements au marché secondaire et aux mécanismes de mise en commun de partage des risques de manière à ce que les propriétaires et les conducteurs titulaires d'un permis de conduire qui ne parviennent pas à se faire assurer par le marché de l'assurance volontaire continuent d'avoir accès à une assurance-automobile. En juin 2007, la proposition de refonte présentée par la FA a été rejetée de justesse lors d'un vote des membres, et aucune proposition de changement notable au Plan d'exploitation n'est présentement envisagée par la FA.
- Élaborer un processus de cotisations pour le recouvrement des coûts auprès du secteur des régimes de retraite, conformément à l'article 25 de la *Loi sur la CSFO*. Un règlement sur les cotisations et un décret ont été adoptés et le Barème des droits requis du ministre a été modifié.

- Effectuer une étude pour établir la faisabilité de l'élaboration d'autres lignes directrices pré-autorisées pour le traitement des lésions subies dans un accident d'automobile en vertu de l'*Annexe sur les indemnités d'accident légales (AIAL)*, de manière à améliorer le recours aux services de santé et à établir à l'intention des assureurs et des fournisseurs de soins de santé de la certitude relativement au coût et au paiement. En octobre 2007, la version révisée de ces lignes directrices pré-autorisées est entrée en vigueur. La CSFO évaluera les orientations futures des lignes directrices en fonction des résultats de recherches et d'analyses, notamment un inventaire des programmes et des protocoles existant dans d'autres administrations.
- Soutenir la mise en œuvre du Système de demandes de règlement pour soins de santé liés à l'assurance-automobile; il s'agit d'une base de données permettant l'échange électronique de renseignements sur des demandes de prestations de maladie entre fournisseurs de soins de santé et compagnies d'assurance, qui répond au besoin d'accéder à des données récentes et exactes afin de surveiller le système d'assurance-automobile. Après le lancement du Système au début de 2008, les responsables ont décidé de suspendre son exploitation afin d'améliorer certaines fonctions techniques et certains procédés administratifs. Les discussions visant à établir la meilleure méthode pour mettre en œuvre ces améliorations devraient se poursuivre en 2008.
- Formuler des recommandations à l'intention du ministère des Finances sur l'actualisation du règlement 283/95 relatif aux différends entre assureurs, dans l'optique de veiller à ce que les auteurs d'une demande de prestations soient bien protégés et aient accès aux prestations d'accident légales lorsque plusieurs compagnies d'assurance sont en litige au sujet de la responsabilité de payer. La CSFO a consulté les intervenants, a analysé les réponses obtenues et a formulé des recommandations en vue de leur présentation au ministère des Finances.
- Contribuer au lancement d'un nouveau fonds de revenu viager (FRV) en vue d'accroître le revenu des personnes âgées à la retraite en améliorant l'accès aux comptes de retraite immobilisés. Le règlement 416/07 a reçu la sanction royale le 27 juillet 2007. Il prévoit la mise en place d'un nouveau FRV à compter du 1^{er} janvier 2008, et élimine l'obligation de convertir un FRV existant en rente viagère lorsque les titulaires atteignent l'âge de 80 ans. Le nouveau règlement permet également le déblocage partiel de fonds transférés à un nouveau FRV. Pour aider les consommateurs à mieux comprendre le fonctionnement du nouveau Fonds, le personnel de la CSFO a élaboré une foire aux questions sur le FRV, de nouveaux formulaires à utiliser pour le retrait des fonds et une version des politiques existantes révisée en fonction de ces changements.
- Élaborer un cadre pour la tenue d'un examen quinquennal du système d'assurance-automobile en vue de faciliter l'actualisation et l'amélioration du système existant. L'examen quinquennal, imposé par l'article 289.1, Partie VI, de la *Loi sur les assurances*, devrait commencer le 1^{er} octobre 2008.

IV. Améliorer la prestation des services

- A mis en œuvre les recommandations issues d'un examen interne des méthodes de règlement des différends afin d'assurer la prestation la plus efficace possible des services de règlement des différends. Des progrès marqués ont été réalisés dans la mise en œuvre des changements recommandés à l'issue de l'examen opérationnel. D'autres recommandations seront mises en œuvre en 2008-2009.
- A poursuivi l'apport d'améliorations aux procédures de suivi de l'application de la loi et de la conformité afin d'améliorer l'approche axée sur le risque en matière de réglementation et la prestation des services. La Section de la technologie de l'information a travaillé avec l'Unité de l'observation de la loi en matière d'assurance-automobile, la Direction des régimes de retraite, l'Unité des enquêtes et la Direction des services juridiques afin d'élaborer et de mettre en œuvre un nouveau système informatique de gestion des dossiers pour le suivi de la conformité et de l'application de la loi dans ces secteurs. Ce système servira de modèle pour les activités d'application de la loi dans d'autres secteurs.
- A analysé les possibilités de mise en place de méthodes de dépôt par voie électronique afin de faciliter les dépôts dans le domaine des assurances.
- A poursuivi la deuxième phase d'actualisation et d'amélioration du site Web de la CSFO afin de renforcer la fourniture par la CSFO d'information et de services électroniques aux consommateurs et aux autres intervenants. Parmi les fonctions ajoutées, mentionnons les pages conviviales de foires aux questions, les Bulletins d'information électronique des courtiers en hypothèques et les pages Web consacrées à la surveillance et l'application (M&E Online). Le site M&E Online remplace les bulletins trimestriels imprimés qui étaient envoyés aux intervenants pour les informer des poursuites, des décisions découlant des audiences et d'autres activités réglementaires (à l'exception de celles relevant du secteur des régimes de retraite, dont rend compte le *Bulletin électronique sur les régimes de retraite*).

Le Tribunal des services financiers

Le Tribunal des services financiers (le Tribunal) est un organisme d'arbitrage indépendant composé de neuf à quinze membres. Au 1^{er} avril 2008, il comptait quatorze membres, y compris le président et les deux vice-présidents de la Commission.

Le Tribunal détient la compétence exclusive d'exercer les pouvoirs que lui confère la Loi de la CSFO, ainsi que les pouvoirs et les fonctions que lui confèrent d'autres lois. Il a également la compétence exclusive de régler toutes les questions de droit ou de fait soulevées au cours des instances dont il est saisi.

De plus, le Tribunal a le pouvoir d'établir les règles de pratique et de procédure à respecter au cours des instances dont il est saisi et d'ordonner à une partie de rembourser les dépens engagés par une autre partie ou par le Tribunal au cours de ces instances.

Le Tribunal a établi les priorités suivantes pour le prochain exercice:

- Examiner et, s'il y a lieu, réviser les règles et les lignes directrices sur les conflits d'intérêt applicables au Tribunal conformément aux dispositions de la *Loi de 2006 sur la fonction publique de l'Ontario*.
- Continuer de veiller à ce que les comités formés pour entendre les questions portées devant le Tribunal disposent de l'expertise nécessaire, notamment par le recrutement d'experts qualifiés et la prestation de la formation complémentaire appropriée.
- Poursuivre le dialogue avec des membres de la profession juridique qui peuvent avoir des rapports avec le Tribunal, et recevoir leurs observations, en reformant le comité consultatif juridique du Tribunal et en actualisant son mandat s'il y a lieu.

Conclusion

Le présent énoncé décrit en détail les activités et projets proposés de la CSFO pour 2008 tout en rendant compte des principales initiatives de 2007. Par la formulation de ces priorités, nous reconnaissons notre responsabilité et notre engagement pris envers les intervenants de faire preuve de prudence et d'être redevables dans l'emploi des ressources qui nous sont confiées.

La CSFO continue de s'appuyer sur de solides partenariats avec les intervenants pour réaliser ses objectifs. Nous sommes impatients de collaborer avec nos nombreux partenaires au cours de l'exercice à venir. Ensemble, nous pouvons promouvoir un marché sain des services financiers marqué par une concurrence dynamique et une bonne protection des consommateurs.

Ontario Securities Commission

AMENDMENTS TO

NATIONAL INSTRUMENT 51-102 *CONTINUOUS DISCLOSURE OBLIGATIONS*,
FORM 51-102F3 *MATERIAL CHANGE REPORT*,
NATIONAL INSTRUMENT 52-108 *AUDITOR OVERSIGHT*,
AND
NATIONAL INSTRUMENT 81-106 *INVESTMENT FUND CONTINUOUS DISCLOSURE*

On July 4, 2008, amendments to the following rules and form came into force under the Securities Act:

- National Instrument 51-102 *Continuous Disclosure Obligations* (NI 51-102);
- Form 51-102F3 *Material Change Report*;
- National Instrument 52-108 *Auditor Oversight*; and
- National Instrument 81-106 *Investment Fund Continuous Disclosure*.

National Instrument 51-102 and its related forms set out continuous disclosure obligations of reporting issuers, other than investment funds. National Instrument 81-106 sets out continuous disclosure obligations for investment funds. National Instrument 52-108 contains auditor oversight requirements for reporting issuers.

The amendments to NI 51-102 add a new exemption from the information circular requirements for certain proxy solicitations made to the public by broadcast, speech or publication. The amendments also revise the existing exemption in section 9.5 of NI 51-102 so that it applies to a person or company that solicits proxies, not just reporting issuers. The other amendments are primarily "housekeeping" in nature and reflect local amendments in other jurisdictions.

The full text of the amendments is available in the Ontario Securities Commission's Bulletin at (2008) 31 OSCB 6571 and on the Commission's web site at http://www.osc.gov.on.ca/Regulation/Rulemaking/Current/rn_part5_index.jsp.

INTERPRETATION**Interpretation**

1. (1) In this Regulation,

“GO Transit” means the Greater Toronto Transit Authority continued under section 2 of the *GO Transit Act, 2001*;

“project commencement date” means, with respect to a transit project, the earliest date that,

- (a) any construction or installation begins as part of the project, or
- (b) any service is started, stopped or changed as part of the project;

“transit project” means,

- (a) an enterprise or activity that is the planning, designing, establishing, constructing, operating, changing or retiring of,
 - (i) a facility or service that, aside from any incidental use for walking, bicycling or other means of transporting people by human power, is used exclusively for the transportation of passengers by bus or rail, or
 - (ii) anything that is ancillary to a facility or service described in subclause (i) and that is used to support or facilitate the transportation of passengers by bus or rail, or
- (b) a proposal, plan or program in respect of an enterprise or activity described in clause (a);

“transit project assessment process” means the process set out in sections 5 to 17 of this Regulation.

(2) For the purposes of this Regulation,

- (a) the site of a transit project is the site of the facility or service referred to in subclause (a) (i) of the definition of “transit project” in subsection (1); and
- (b) the site of a change to a transit project is the site of the change to the facility or service referred to in subclause (a) (i) of the definition of “transit project” in subsection (1).

EXEMPTIONS

Exemption conditional on compliance with transit project assessment process

2. (1) A transit project that belongs to a class of transit projects described in Schedule 1 is exempt from Part II of the Act if the proponent complies with the transit project assessment process.

(2) Subsection (3) applies if, before the day this section came into force,

- (a) the proponent of a transit project submitted an environmental assessment or proposed terms of reference in respect of the project to the Ministry; or
- (b) the proponent of a transit project gave a notice to the public in accordance with an approved class environmental assessment.

(3) In the circumstances described in subsection (2), subsection (1) does not apply to the transit project unless, not later than 60 days after the day this section comes into force, the Director of the Ministry’s Environmental Assessment and Approvals Branch and the appropriate regional director of the Ministry have received written notice from the proponent stating that the proponent will comply with the transit project assessment process.

(4) The validity of anything done before the day this section came into force is not affected if, after receipt of the notices referred to in subsection (3), the transit project assessment process is terminated under subsection 6 (3) or clause 13 (4) (b) or 15 (20) (b).

(5) If, pursuant to subsection (1), Part II of the Act does not apply to a transit project and proceeding with the project conflicts with a condition imposed by an approval under the Act that applies to another undertaking, subsections 5 (4) and 12.2 (6) and section 38 of the Act do not apply to the condition to the extent of the conflict.

(6) Subsection (1) ceases to apply to a transit project if the proponent gives the Director of the Ministry’s Environmental Assessment and Approvals Branch and the appropriate regional director of the Ministry written notice indicating that the proponent will proceed with the transit project in accordance with Part II of the Act or an approved class environmental assessment.

Unconditional exemption of other transit projects

3. (1) A transit project that does not belong to a class of transit projects described in Schedule 1 is exempt from Part II of the Act.

(2) Subsection (1) ceases to apply to a transit project if the proponent gives the Director of the Ministry’s Environmental Assessment and Approvals Branch and the appropriate regional director of the Ministry written notice indicating that the proponent will proceed with the transit project in accordance with Part II of the Act or an approved class environmental assessment.

GTTA undertakings

4. (1) Any undertaking of the Greater Toronto Transportation Authority that is described in section 6, 7, 8 or 8.1 of the *Greater Toronto Transportation Authority Act, 2006* is exempt from Part II of the *Environmental Assessment Act*.

(2) Subsection (1) does not apply to an undertaking that is a transit project if the transit project belongs to a class of transit projects described in Schedule 1.

Introduction

The Minister of Health and Long-Term Care, on behalf of the Government of Ontario, invites public comments on a proposed regulation made under the *Local Health System Integration Act, 2006 (LHSIA)*.

The Lieutenant Governor in Council is authorized under the Act to make regulations pertaining to Local Health Integration Networks' (LHINs) Aboriginal community engagement activities.

Under the Act, the Minister is required to publish a notice of the proposed regulation and allow at least 60 days for public comment.

Overview of the Legislation

LHSIA received Royal Assent on March 28, 2006. The legislation establishes an integrated health system to improve the health of Ontarians through better access to health services, coordinated health care and effective and efficient management of the health system at the local level by LHINs.

Proposed Regulation under the *Local Health System Integration Act, 2006*

The proposed regulation provides guidelines to the LHINs regarding their Aboriginal community engagement activities. Each LHIN is required to establish a committee that is representative of the Aboriginal peoples and communities within the LHIN's geographic boundaries, and may include:

- First Nations
- Inuit
- Métis
- Representatives of on-reserve organizations
- Representatives of off-reserve organizations
- Representatives of Aboriginal health service provider organizations
- Representatives of Aboriginal community organizations
- Representatives of Aboriginal women's organizations

Two or more LHINs may jointly establish one committee, if after conferring with Aboriginal peoples and communities in their areas, they determine that the members of the committee appropriately represent the diversity of Aboriginal peoples and communities in the area(s) that they serve.

The LHIN will engage with the committee on:

- The health needs and priorities of the local Aboriginal population and;
- Health care service delivery issues affecting Aboriginal peoples and communities within the area.

Each LHIN will report on the content, frequency and format of Aboriginal community engagement activities in its annual report.

A copy of the proposed regulation is attached as Schedule "A."

Photograph or equivalent / photographie ou l'équivalent

Veuillez prendre note : L'article 207 du Code de la route prévoit que vous-même, à titre de propriétaire, êtes responsable de cette infraction même si vous ne conduisiez pas le véhicule à ce moment-là, sous réserve d'exceptions restreintes. Une déclaration de culpabilité pour cette infraction ne vous fera pas perdre de points d'inaptitude et n'entraînera pas la suspension de votre permis de conduire. L'agent des infractions provinciales a attesté que le système photographique relié aux feux rouges qui a servi à détecter cette infraction est un système prescrit, utilisé dans une zone désignée. De plus, il a attesté que le système était en bon état de fonctionnement à ce moment-là, que les photos obtenues ont été enregistrées par le système et que les feux de circulation fonctionnaient correctement au moment de l'infraction. Des photos certifiées seront présentées en preuve lors de votre procès.

Important – If you do not exercise one of the following options within 15 days of receiving this notice, you will be deemed not to wish to dispute the charge and a justice may enter a conviction against you. Upon conviction additional costs will be added to the total payable. If the fine goes into default, an administrative fee will be added and the information may be provided to a consumer reporting agency. Steps will be taken to enforce your defaulted fine, including refusal to issue a validation of your vehicle permit or refusal to issue a vehicle permit until the total payable and all additional costs and fees have been paid.

En cas de défaut de paiement de l'amende, des frais d'administration s'ajouteront et l'information peut être transmise à une agence de renseignements sur le consommateur. Des mesures seront prises pour exécuter le paiement de votre amende, y compris le refus de validation de votre certificat d'immatriculation ou le refus de délivrance de votre certificat d'immatriculation jusqu'à ce que le montant total exigible et tous les frais additionnels aient été payés.

PAYMENTS UNDER THE ACT IN RESPECT OF THE 2007-2008 FISCAL YEAR

Interpretation

1. In this Regulation,

“available amount” means, in relation to any fiscal year of the province, the amount authorized to be paid to eligible recipients under subsection 2 (1) of the Act in respect of that fiscal year;

“preliminary surplus” means the amount that, but for the payments made under the Act in respect of a fiscal year, would be the surplus for the fiscal year as provided in the province’s consolidated financial statements.

Allocation of preliminary surplus to reduction of accumulated deficit

2. For the purposes of the definition of “B” in subsection 2 (2) of the Act, the amount of the preliminary surplus in respect of the fiscal year commencing April 1, 2007 to be allocated to the reduction of the accumulated deficit shown in the province’s consolidated financial statements shall be determined as follows:

1. If the preliminary surplus is less than \$800,000,000, all of the preliminary surplus is to be allocated to the reduction of the accumulated deficit.
2. If the preliminary surplus is greater than or equal to \$800,000,000 but less than or equal to \$2,600,000,000, \$600,000,000 of the preliminary surplus is to be allocated to the reduction of the accumulated deficit.
3. If the preliminary surplus is greater than \$2,600,000,000, the amount of the preliminary surplus to be allocated to the reduction of the accumulated deficit is the sum of \$600,000,000 plus the amount of the preliminary surplus in excess of \$2,600,000,000.

Eligible recipients

3. Every municipality in Ontario is an eligible recipient in respect of the fiscal year commencing April 1, 2007.

Eligible purposes

4. Payments made under the Act, if any, in respect of the fiscal year commencing April 1, 2007,
 - (a) may only be used by an eligible recipient for expenditures that are capital expenditures with respect to the eligible recipient under generally accepted accounting principles for local governments as recommended, from time to time, by the Public Sector Accounting Board of the Canadian Institute of Chartered Accountants; and
 - (b) shall not be used for the purpose of reducing or paying out the amount of any debt relating to a capital expenditure if the debt was incurred by the eligible recipient before the date on which the relevant payment is received.

Method of and basis for allocations to eligible recipients

5. (1) In this section,

“municipal group” means a group of municipalities consisting of a municipality that as of March 31, 2008 is an upper-tier municipality and every municipality that as of March 31, 2008 is a lower-tier municipality that forms part of the upper-tier municipality for municipal purposes;

“population” means, in respect of an eligible recipient that is a lower-tier municipality, single-tier municipality or upper-tier municipality, the 2006 Census of Population census subdivision population that falls within the boundaries of the eligible recipient, as reported by Statistics Canada under the *Statistics Act* (Canada) as of March 31, 2008;

“total population of all municipalities in Ontario” means the 2006 Census of Population census subdivision total population that falls within the boundaries of all single-tier municipalities and upper-tier municipalities in Ontario, as reported by Statistics Canada under the *Statistics Act* (Canada) as of March 31, 2008.

- (2) The available amount for the fiscal year commencing on April 1, 2007 shall be allocated among eligible recipients as follows:

1. The amount allocated to each eligible recipient that is a single-tier municipality as of March 31, 2008 and, subject to paragraphs 2 and 3, to each municipal group is calculated using the formula,

$$A \times B/C$$

in which,

“A” is the available amount for the fiscal year,

“B” is the population of the eligible recipient or of the upper-tier municipality of a particular municipal group, as the case may be, and

“C” is the total population of all municipalities in Ontario.

2. From the amount allocated to a particular municipal group under paragraph 1, the amount allocated to the upper-tier municipality in the municipal group is calculated using the formula,

$$D \times E/F$$

in which,

“D” is the amount allocated to the municipal group under paragraph 1 for the fiscal year,

“E” is the arithmetic mean of the capital expenditures reported in Column 07 (Capital Expenditures) of Row 9910 (Total) of Schedule 52 (Sources of Capital Fund Financing Expenditures) of the Financial Information Returns provided as of March 31, 2008 by the upper-tier municipality to the Ministry of Municipal Affairs and Housing for the years 2001 to 2005, and

“F” is the arithmetic mean of the aggregate of all capital expenditures reported in Column 07 (Capital Expenditures) of Row 9910 (Total) of Schedule 52 (Sources of Capital Fund Financing Expenditures) of the Financial Information Returns provided as of March 31, 2008 by the upper-tier municipality and each lower-tier municipality that formed part of the upper-tier municipality for municipal purposes to the Ministry of Municipal Affairs and Housing for the years 2001 to 2005.

1.3 Interpretations

1.3.1 Unless otherwise defined in this Code, words and phrases shall have the meanings ascribed to them in the Act or the Electricity Act, as the case may be. Where a word or phrase is defined in this Code, the Act or the Electricity Act, other parts of speech and grammatical forms of the word or phrase have a corresponding meaning. Headings are for convenience only and shall not affect the interpretation of this Code. Words importing the singular include the plural and vice versa. Words importing a gender include any gender. Words importing a person include: (i) an individual; (ii) a company, sole proprietorship, partnership, trust, joint venture, association, corporation or other private or public body corporate; and (iii) any government, government agency or body, regulatory agency or body or other body politic or collegiate. 1.4 To Whom this Code Applies

1.4.1 This Code applies to all persons licensed as smart sub-metering providers under section 57(i) of the Act to provide prescribed activities.

1.5 Coming into Force

1.5.1 This Code shall come into force on the date that the Board publishes the Code by placing it on the Board's website after it has been made by the Board.

1.6 Requirements for Board Approvals

1.6.1 Any matter under this Code requiring a determination of the Board may be determined by the Board without a hearing or through an oral, written or electronic hearing, at the Board's discretion.

1.7 Contract with a Prescribed Location

1.7.1 A smart sub-metering provider shall not undertake any prescribed activity in a prescribed location unless the smart sub-metering provider has a contract with the condominium corporation or developer to do so.

2 METERING

2.1 Technical Requirements for a Smart Sub-Metering System

2.1.1 A licensed smart sub-metering provider shall comply with the requirements set out in the Functional Specification document referred to in Ontario Regulation 425/06 (Criteria and Requirements for Meters and Metering Equipment, Systems and Technology) made under the Electricity Act with the following modifications:

(a) for the purposes of this Code, the definitions of “distributor” and “MDM/R” will be deemed to be as follows:

- (i) “distributor” has the meaning provided in the Act or means a person licensed under subsection 57(i) of the Act for the purpose of engaging in a prescribed activity under section 1(2) of Ontario Regulation 443/07 (Licensing Sub-Metering Activities) made under the Act; and
- (ii) “MDM/R” means the meter data management and meter data repository functions, within which Meter Reads are processed to produce rate-ready data and are stored for future use, as selected by the person licensed under subsection 57(i) of the Act. There is no requirement for the metering and billing system of a person licensed under subsection 57(i) to interface and/or integrate with the Smart Metering Entity's system; nor is there a requirement for meter data functions to be performed by the Smart Metering Entity, unless the person licensed under subsection 57(i) chooses to interface and integrate its metering and billing system with the Smart Metering Entity's system. If the person licensed under subsection 57(i) does not choose to interface and integrate its metering and billing system with the Smart Metering Entity's system, the person shall perform meter data functions. Meter data functions include the verification, validation and editing of meter data, the processing of meter data into data that is ready for billing purposes, the aggregation of meter data into rate periods and the storing and managing of meter data; and

(b) for the purposes of this Code, the following definition of “Smart Metering Entity” will be deemed to be added as follows:

- (i) “Smart Metering Entity” means the smart metering entity established under Part IV.2 of the Electricity Act.

2.2 Technical Requirements for the Master Meter

2.2.1 A smart sub-metering provider shall ensure that either:

- (a) the board of directors of a condominium corporation; or
- (b) the developer of a building, in any stage of construction, on land for which a declaration and description is proposed or intended to be registered pursuant to section 2 of the *Condominium Act, 1998*,

has requested, and a distributor has installed, a master meter that is an interval meter before beginning to provide smart sub-metering services.

2.3 Validating, Estimating and Editing Process

2.3.1 Metering data collected by a smart sub-metering provider shall be subjected to a validating, estimating and editing (“VEE”) process if it is to be used for billing purposes.

2.3.2 A smart sub-metering provider shall establish a VEE process that is fair and reasonable and provides assurance that correct data is submitted for the billing process. The VEE process shall do the following:

- (a) convert raw metering data into validated, corrected or estimated “bill-ready” metering data suitable for use in determining billing amounts;
- (b) detect errors in metering data introduced as a result of improper operational conditions and/or hardware/software malfunctions, including failures of or errors in metering or communication hardware, and metering data exceeding pre-defined variances or tolerances; and
- (c) use operational system data, including historical load patterns and data collected by the smart sub-metering provider, as appropriate, for validating raw metering data, and for editing, estimating and correcting metering data found to be erroneous or missing.

2.3.3 A smart sub-metering provider's VEE process for data from the smart sub-metering system shall consider industry standards specified by the SME in its VEE process for smart meters.

- 2.3.4 A smart sub-metering provider shall document and make available its VEE process and criteria, and allow scrutiny of its process by consumers, retailers, the Board and Measurement Canada.

2.4 Metering Services

- 2.4.1 A smart sub-metering provider shall comply with Measurement Canada standards as a minimum metering installation and measurement standard, and may apply any other practices that exceed those standards.
- 2.4.2 A smart sub-metering provider shall ensure that persons involved in metering services have competency in performing these services. Competency may be based on recognized qualification requirements that include a training course that meets the requirements of the tasks to be performed. Metering services provided by a person that does not have the recognized qualification requirements shall be reviewed, affirmed and documented by a person with exhibited competency.
- 2.4.3 A smart sub-metering provider shall exercise appropriate diligence in detecting and acting upon instances of tampering with metering equipment. Upon identification of possible meter tampering, the smart sub-metering provider should notify, as appropriate, Measurement Canada, police officials, the Electrical Safety Authority, or other entities.
- 2.4.4 Nothing in this Code shall affect the obligation of a smart sub-metering provider to comply with all Measurement Canada requirements provided that, where this Code or other conditions of licence prescribe a higher standard than that prescribed in those requirements, the smart sub-metering provider shall comply with the higher standard.
- 2.4.5 A smart sub-metering provider shall respond to consumer metering disputes, and shall establish a fair and reasonable charge for costs associated with resolution of these disputes. If the complaint is substantiated, the charge shall not be applied. In resolving the dispute, a smart sub-metering provider may use a qualified, independent organization at anytime during the dispute resolution process.

- 3.3.1 A smart sub-metering provider shall communicate general market and educational information to consumers to whom it provides a bill as required by the Board.
- 3.3.2 A smart sub-metering provider shall provide its address and telephone number to its consumers in all written communications between the smart sub-metering provider and the consumer. The smart sub-metering provider's telephone number must be a local number or one that is capable of being reached without charge to the consumer.
- 3.3.3 If any consumer makes a complaint to a smart sub-metering provider regarding its services, the smart sub-metering provider shall expeditiously investigate the complaint and take all appropriate and necessary steps to resolve the complaint. If the complaint is not resolved to the satisfaction of the consumer, the smart sub-metering provider shall provide to the consumer the telephone number of the Board's Consumer Relations Centre.
- 3.3.4 In cases where a consumer complaint has been referred to the smart sub-metering provider from the Board and resolution of the complaint is reached, the smart sub-metering provider shall implement the resolution immediately and shall confirm this, in writing, to the Board.

3.4 Transfer and Assignment of Contracts

- 3.4.1 A smart sub-metering provider shall not sell, transfer, or assign a contract with a consumer to another person who is not a licensed smart sub-metering provider.
- 3.4.2 Prior to the sale, transfer, or assignment of a contract, the smart sub-metering provider shall ensure that all relevant consumer information including, but not limited to, information regarding security deposits and consumption, is properly transferred to the new smart sub-metering provider to allow for the continuous billing of consumers.
- 3.4.3 Prior to the termination of a contract, the smart sub-metering provider shall ensure that all relevant consumer information including, but not limited to, information regarding security deposits and consumption, is properly transferred to the exempt distributor to allow for the continuous billing of consumers.
- 3.4.4 A smart sub-metering provider must notify the Board of any sale, transfer, or assignment of contracts within 10 days of the sale, transfer, or assignment.
- 3.4.5 Within 60 days of any sale, transfer, or assignment of a contract to another smart sub-metering provider, the new smart sub-metering provider must notify the affected consumers of the new smart sub-metering provider's address and telephone number.

4 BILLING AND COLLECTION**4.1 Security Deposits**

- 4.1.1 A smart sub-metering provider who is contracted to collect security deposits on behalf of the condominium corporation or developer shall ensure that its Conditions of Service include the smart sub-metering provider's security deposit policy which shall be consistent with the provisions of this Code. A smart sub-metering provider's security deposit policy shall include at a minimum the following:
- (a) a list of all potential types/forms of security accepted;
 - (b) a detailed description of how the amount of security is calculated;
 - (c) limits on the amount of security required;
 - (d) the planned frequency, process and timing for updating security deposits;
 - (e) criteria consumers must meet to have security deposit waived and/or returned; and
 - (f) methods of enforcement where a security deposit is not paid.
- 4.1.2 In managing consumers' non-payment risk, a smart sub-metering provider shall not discriminate among consumers with similar risk profiles or risk related factors except where expressly permitted under this Code.
- 4.1.3 A smart sub-metering provider may require a security deposit from a consumer unless the consumer has a good payment history of 1 year. The time period that makes up the good payment history must be the most recent period of time and some of the time period must have occurred in the previous 24 months. A smart sub-metering provider shall provide a consumer with the specific reasons for requiring a security deposit from the consumer.
- 4.1.4 For the purposes of section 4.1.3, a consumer is deemed to have a good payment history unless, during the relevant time period set out in section 4.1.3, the consumer has received more than one disconnection notice from the smart sub-metering provider, more than one cheque given to the smart sub-metering provider by the consumer has been returned for insufficient funds, more than one pre authorized payment to the smart sub-metering provider has been returned for insufficient funds or a disconnect / collect trip has occurred. If any of the preceding events occur due to an error by the smart sub-metering provider, the consumer's good payment history shall not be affected.
- 4.1.5 For the purposes of section 4.1.3, a smart sub-metering provider shall deem a consumer to have a good payment history if the consumer provides a letter from a licensed electricity distributor or gas distributor in Canada confirming a good payment history with that distributor for the most recent relevant time period set out in section 4.1.3 where some of the time period which makes up the good payment history has occurred in the previous 24 months.
- 4.1.6 The maximum amount of a security deposit which a smart sub-metering provider may require a consumer to pay shall be calculated by multiplying the smart sub-metering provider's billing cycle factor and the consumer's estimated bill (which shall be based on the consumer's average monthly load with the smart sub-metering provider during the most recent 12 consecutive months within the past two years). Where relevant usage information is not available for the consumer for 12 consecutive months within the past two years or where the smart sub-metering provider does not have systems capable of making the above calculation, the consumer's average monthly load shall be based on a reasonable estimate made by the smart sub-metering provider.

- 4.1.7 For the purposes of sections 4.1.6, the billing cycle factor is 2.5 if the consumer is billed monthly, 1.75 if the consumer is billed bi-monthly and 1.5 if the consumer is billed quarterly.
- 4.1.8 Where a consumer has a payment history which discloses more than one disconnection notice in a relevant 12 month period, the smart sub-metering provider may use that consumer's highest actual or estimated monthly load for the most recent 12 consecutive months within the past two years for the purposes of making the calculation of the maximum amount of security deposit under section 4.1.6.
- 4.1.9 Subject to section 4.1.2, a smart sub-metering provider may at its discretion reduce the amount of a security deposit which it requires a consumer to pay for any reason including where the consumer pays under an interim payment arrangement and where the consumer makes pre-authorized payments.
- 4.1.10 The form of payment of a security deposit for a consumer shall be cash or cheque at the discretion of the consumer or such other form as is acceptable to the smart sub-metering provider.
- 4.1.11 A smart sub-metering provider shall permit the consumer to provide a security deposit in equal installments paid over at least four months. A consumer may, in its discretion, choose to pay the security deposit over a shorter time period.
- 4.1.12 Interest shall accrue monthly on security deposits made by way of cash or cheque commencing on receipt of the total deposit required by the smart sub-metering provider. The interest rate shall be at the average over the period of the prime lending rate set by the Bank of Canada less 2 percent. The interest accrued shall be paid out at least once every 12 months or on return of the security deposit or upon the application of the security deposit to the consumer's account or upon the closure of the consumer's account, whichever comes first, and may be paid by crediting the account of the consumer or otherwise.
- 4.1.13 A smart sub-metering provider shall review every consumer's security deposit at least once in a calendar year to determine whether the entire amount of the security deposit is to be returned to the consumer as the consumer is now in a position that it would be exempt from paying a security deposit under section 4.1.3 had it not already paid a security deposit or whether the amount of the security deposit is to be adjusted based on a recalculation of the maximum amount of the security deposit under section 4.1.6.
- 4.1.14 A smart sub-metering provider must respond promptly to a consumer who, no earlier than 12 months after the payment of a security deposit or the making of a prior demand for a review, demands in writing that a smart sub-metering provider undertake a review to determine whether the entire amount of the security deposit is to be returned to the consumer as the consumer is now in a position that it would be exempt from paying a security deposit under section 4.1.3 had it not already paid a security deposit or whether the amount of the security deposit is to be adjusted based on a recalculation of the maximum amount of the security deposit under section 4.1.6.
- 4.1.15 Where the smart sub-metering provider determines in conducting a review under section 4.1.13 or 4.1.14 that some or all of the security deposit is to be returned to the consumer, the smart sub-metering provider shall promptly return this amount to the consumer by crediting the consumer's account or otherwise.
- 4.1.16 A smart sub-metering provider shall promptly return any security deposit received from the consumer upon closure of the consumer's account, subject to the smart sub-metering provider's right to use the security deposit to set off other amounts owing by the consumer to the smart sub-metering provider. The security deposit shall be returned within six weeks of the closure of an account.
- 4.1.17 Where all or part of a security deposit has been paid by a third party on behalf of a consumer, the smart sub-metering provider shall return the amount of the security deposit paid by the third party, including interest, where applicable, to the third party. This obligation shall apply where and to the extent that:
- (a) the third party paid all or part (as applicable) of the security deposit directly to the smart sub-metering provider;
 - (b) the third party has requested, at the time the security deposit was paid or within a reasonable time thereafter, that the smart sub-metering provider return all or part (as applicable) of the security deposit to it rather than to the consumer; and
 - (c) there is not then any amount overdue for payment by the consumer that the smart sub-metering provider is permitted by this Code to off set using the security deposit.
- 4.2 Disconnection and Reconnection**
- 4.2.1 A smart sub-metering provider shall not disconnect consumers for non-payment of bills unless the condominium corporation or developer has contracted the smart sub-metering provider to do so on its behalf.
- 4.2.2 A smart sub-metering provider shall establish a process for disconnection and reconnection that specifies the notification policies for disconnection and reconnection as well as the timing of disconnections and reconnections. In developing physical and business processes for reconnection, a smart sub-metering provider shall consider safety and reliability as a primary requirement. A smart sub-metering provider shall document its business process for disconnection and reconnection in its Conditions of Service.
- 4.2.3 Without limiting the generality of the foregoing, prior to disconnecting a consumer for non-payment, a smart sub-metering provider shall provide to the consumer, and any person that is to receive notice of the disconnection:
- (a) the Fire Safety Notice of the Office of the Fire Marshal; and
 - (b) any other public safety notices or information bulletins issued by public safety authorities and provided to the smart sub-metering provider, which provide information to consumers respecting dangers associated with the disconnection of electricity service.
- 4.2.4 A smart sub-metering provider shall include a copy of the notices or bulletins referred to in section 4.2.3 with any notice of disconnection that is left at the consumer's property at the time of actual disconnection for non-payment.
- 4.2.5 A smart sub-metering provider shall inform a consumer responsible for an overdue amount that it may be disconnected in accordance with section 31(2) of the Electricity Act.

- 4.2.6 It is recommended that, whenever possible, smart sub-metering providers give no less than seven (7) calendar days notice before disconnecting a consumer for non-payment.
- 4.2.7 A smart sub-metering provider may disconnect a consumer without notice in accordance with a court order or for emergency, safety or system reliability reasons.
- 4.2.8 A smart sub-metering provider may recover from consumer who is disconnected the reasonable costs associated with the disconnection, including overdue amounts payable by the consumer. A smart sub-metering provider may recover from the disconnected consumer the reasonable costs for repairs of the smart sub-metering provider's physical assets in reconnecting the consumer.
- 4.2.9 In establishing its disconnection policy, which will be set out in its Conditions of Service, a smart sub-metering provider may consider the following reasons for disconnection:
- (a) adverse effect on the reliability and safety of the smart sub-metering system or the exempt distributor's distribution system;
 - (b) imposition of an unsafe worker situation beyond normal risks inherent in the operation of the smart sub-metering system or the exempt distributor's distribution system;
 - (c) a material decrease in the efficiency of the smart sub-metering system or the exempt distributor's distribution system;
 - (d) a materially adverse effect on the quality of distribution services received by an existing connection;
 - (e) inability of the smart sub-metering provider to perform planned inspections and maintenance;
 - (f) failure of the consumer to comply with a directive of a smart sub-metering provider that the smart sub-metering provider makes for purposes of meeting its licence obligations; and
 - (g) the consumer owes the exempt distributor money for smart sub-metering services or for a security deposit. The smart sub-metering provider shall give the consumer a reasonable opportunity to provide the security deposit consistent with section 4.1.11.
- 4.3 Form of the Invoice**
- 4.3.1 A smart sub-metering provider who is contracted to bill low-volume consumers on behalf of the condominium corporation or developer shall comply with all applicable regulations regarding information on invoices to low-volume consumers of electricity.
- 4.4 Payment of the Master Bill**
- 4.4.1 If the smart sub-metering provider has assumed responsibility for payment for the master bill, then the amount to be collected from consumers shall not include any penalties assessed by the licensed distributor on the master bill. Penalties include, but are not limited to, late payment charges and disconnect or reconnect charges.
